4.6 Break-up of the sample on the basis of Experience as secretary

4.7 Break-up of the sample on the basis of Locality of residence

4.8 Break-up of the sample on the basis of Family members with disabilities

4.9 Descriptive statistics of awareness score of local body secretaries (N=300)

4.10 Number and Percentage of awareness level among local body secretaries

4.11 The mean and standard deviations of scores of awareness of local body secretaries based on type of local body

4.12 Summary of ANOVA for awareness score of local body secretaries with respect to their type of local body

4.13 Means and standard deviations of awareness score of local body secretaries with respect to years of experience in job

4.14 Summary of ANOVA for awareness score of local body secretaries with respect to their years of experience in job

4.15 Means and standard deviations of awareness score of local body secretaries with respect to years of experience as secretary

4.16 Summary of ANOVA for awareness score of local body secretaries with respect to their years of experience as secretary

4.17 Means and standard deviations of awareness score of local body secretaries with respect to educational qualification
4.18 Summary of ANOVA for awareness score of local body secretaries with respect to educational qualification

4.19 Test of least significant difference for pair wise comparison of mean scores of awareness of local body secretaries with respect to educational qualification

4.20 Means and standard deviations of awareness score of local body secretaries with respect to age

4.21 Summary of ANOVA for awareness score of local body secretaries with respect to age

4.22 Means, standard deviations and t-value of awareness scores of local body secretaries with respect to gender

4.23 Means, standard deviations and t-value of awareness scores of local body secretaries with respect to locality of residence

4.24 Means and standard deviations of awareness score of local body secretaries with respect to religion

4.25 Summary of ANOVA for awareness score of local body secretaries with respect to religion

4.26 Test of results of least significant difference for pair wise comparison of mean scores of awareness of local body secretaries with respect to religion

4.27 Means, standard deviations and t-value of awareness scores of local body secretaries with respect to family members with disabilities

4.28 Descriptive statistics of attitude score of local body secretaries (N=300)

4.29 Means and standard deviations of attitude score of local body secretaries with respect to type of local body

4.30 Summary of ANOVA for attitude score of local body secretaries with respect to type of local body
4.31 Means and standard deviations of attitude score of local body secretaries with respect to years of experience in job

4.32 Summary of ANOVA for attitude score of local body secretaries with respect to years of experience in job

4.33 Means and standard deviations of attitude score of local body secretaries with respect to years of experience as secretary

4.34 Summary of ANOVA for attitude score of local body secretaries with respect to years of experience as secretary

4.35 Means and standard deviations of attitude score of local body secretaries with respect to educational qualification

4.36 Summary of ANOVA for attitude score of local body secretaries with respect to education

4.37 Test of least significant difference for pair wise comparison of mean scores of attitude of local body secretaries with respect to education

4.38 Means and standard deviations of attitude score of local body secretaries with respect to age

4.39 Summary of ANOVA for attitude score of local body secretaries with respect to age

4.40 Means, Standard deviations and t-value of attitude scores of local body secretaries with respect to gender

4.41 Means, standard deviations and t-value of attitude scores of local body secretaries with respect to locality of residence

4.42 Means and standard deviations of attitude score of local body secretaries with respect to religion
4.43 Summary of ANOVA for attitude score of local body secretaries with respect to religion  
4.44 Test of least significant difference for pair wise comparison of mean scores of attitude of local body secretaries with respect to religion  
4.45 Means, standard deviations and t-value of attitude scores of local body secretaries with respect to family members with disabilities  
4.46 Descriptive statistics of laws score of local body secretaries (N=300)  
4.47 Frequencies and percentage of local body secretaries with respect to the level of implementation of laws  
4.48 Coefficient of correlation between awareness and attitude of local body secretaries on disability  
4.49 Coefficient of correlation between awareness and implementation of laws of local body secretaries on disability  
4.50 Coefficient of correlation between attitude and implementation of laws of local body secretaries on disability  
4.51 Descriptive statistics of fund implementation score in 2007-08 year of local body (N=300)  
4.52 Frequencies and percentage of local body with respect to the level of implementation of funds  
4.53 Descriptive statistics of fund implementation score in 2008-09 year of local body (N=300)  
4.54 Frequencies and percentage of local body with respect to the level of implementation of funds  
4.55 Descriptive statistics of fund implementation score in 2009-10 year of local body (N=300)
4.56 Frequencies and percentage of local body with respect to the level of implementation of funds 182

4.57 Descriptive statistics of fund implementation score in 2010-11 year of local body (N=300) 184

4.58 Frequencies and percentage of local body with respect to the level of implementation of funds 186

4.59 Descriptive statistics of fund implementation 187

4.60 Frequencies and percentage of local body with respect to the level of implementation of funds score in 2011-12 year of local body (N=300) 188
