ACKNOWLEDGEMENT

Thanks to Almighty God, The beneficent, The merciful, all Embracing, all Knowing, for providing me this opportunity, courage and ability to complete this humble contribution towards knowledge.

Acknowledgements are not the full expression of one’s gratitude towards the person whose help is acknowledged. Language is an adequate medium to express one’s sentiments. But it is the only that one can record one’s gratefulness and indebtedness to one’s benefactions.

I wish to record my heartfelt gratitude and indebtedness to my supervisor Dr. (Mrs.) Hemant Lata Sharma, Professor, Department of Education M.D.U. Rohtak for her keen observation, superb guidance and constructive criticism in every part of the research undertaken. She easily detected my mental blind spots and guarded me on with such expertise that I no longer felt a stranger in an unknown terrain. Her valuable and thought provoking suggestions and constant encouragement were there to guide me at various stages of this research. But for such interest and the constant help she has shown, it would have been impossible for me to sustain my efforts up to its completion.

I would also like to express my gratitude to Prof. (Mrs.) Indira Dhull, Head & Dean, Department of Education, M.D.University, Rohtak for her suggestions and moral support. Recognition and special thanks are due to Dr. D. N. Khosla, Consultant, NCTE, New Delhi, who was the real source of encouragement and motivation to me. I would also like to thank Dr. (Mrs.) Rajni Joshi, for her encouragement and moral support. I would fail in my duty if I don’t express my gratitude towards Dr. Asha Joshi, Professor, Department of Education, H. N. B. Central University Garhwal, Srinagar and her husband Dr. K. N. Joshi, Retd Professor, Dept. of Mathematics, H. N. B. Central University Garhwal, Srinagar for their invaluable guidance. Words are not enough to express my deepest gratitude to Dr. Sudhir Sahu, Assistant Professor, Vikrmaditya College of Education, Morkheri (Rohtak), who generously helped me with his knowledge and experience. His valuable suggestions kept me on track.

It would be great injustice if I ignore my family. The constant motivation, support, encouragement and patience of my better half Mrs. Anju, Assistant Professor, K. C.
College of Education, Gannaur (Sonipat), were invaluable during the preparation of this thesis. I am also very thankful to my daughters Sanskriti and Sabhyata for their visible and invisible help in the accomplishment of this task.

I offer deepest gratitude to my father Sh. S. B. Sharma, mother Mrs. Raj Rani and my brothers Mr. Subhash and Mr. Rajesh who extended great help at every step.

I would like to express my sincere gratitude to all the principals and students of Sr. Sec. Schools chosen for the data collection for their wholehearted cooperation.

Last but not the least I would like to thank Mr. Monu, who typed this dissertation with sincerity and devotion.

Above all, I am greatly indebted to each and everyone who, even by the smallest thought, word or deed, has helped me during the period of this study.

Vijender Gaur
