

## **ACKNOWLEDGEMENTS**

I express my deep and sincere gratitude to my guide, Prof. (Dr.) D. S. Patil for his invaluable guidance, constant encouragement, keen interest and good wishes. His enthusiasm, punctuality, passion for research, knowledge of developing various plasma based systems and simplicity has made deep impression on me. I am also grateful to him for being patient during the course of this work and for critically reviewing the thesis.

I would like to give my sincere thanks to Dr. Dasgupta, Associate Director, Beam Technology and Development Group, Dr. A. K. Das, former head, Laser and Plasma Technology Division and Dr. Sucharita Sinha, Head, Laser and Plasma Surface Process Section for giving me an opportunity to work in Laser and Plasma Technology Division. I am grateful to doctoral committee members, Dr. Pushan Ayyub, Senior Professor, TIFR and Dr. N. K. Sahoo, Head Applied Spectroscopy for spending their precious time for periodic assessment of the work and giving valuable suggestions to enhance the quality of work.

It gives me pleasure to place on record my sincere thanks to Dr. P.V.A. Padmanabhan, Mr. S. N. Sahasrabudhe, Dr. K. Patel, Dr. S. Ghorui, Mr. A. Tak and Smt. Nirupama Tiwari for attending periodic review presentations and for giving their valuable suggestions.

I express my deep gratitude to Dr. M. N. Deo, Dr. Dibyendu Bhattacharya, Dr. Jagannath, Mr. R. Tokas, Ms. Chandrani Naik, Prof. G. M. Rao, Mr. Arup Biswas, Dr. G. S. Lodha, Mr. Sanjay Rai, Dr. Niranjan Kumar for providing the characterization facilities.

I offer my sincere gratitude to my section members, Mr. Rajib Kar, Mr. Naresh Chand, Ms. Arundhati Bute and Ms. Shazia Shaikh for their constant support and creating

a lively working environment. Interaction with them has been enjoyable, enriching and fruitful in many ways. I sincerely acknowledge Mr. K. C. Meher, for his help throughout the course of this work. It gives me immense pleasure to thank my senior, Dr. Shruti Barve for her support during initial phase of this work. My special thanks to Mr. Sankalp Thakur for his help during experimental setup.

I take this opportunity to thank my other colleagues Ms. Gayatri Dhamale, Ms. Vandana Chaturvedi and all well wishers for their unconditional support and help. I am grateful to Mr. Amey Wadawale for his help during formatting of the thesis.

I am thankful to Dr. Mohanty, Dean of Academics, Physical Sciences, HBNI for his support during the course of this work. I gratefully acknowledge the financial support provided by DAE and HBNI during course of these investigations.

It gives me pleasure to express my deep gratitude to my parents, in-laws and all my family members for their constant support, well wishes and encouragement. I specially acknowledge the help provided by my husband Mr. Suresh Chopade during drafting of thesis and co-operation from my dear son Soham who allowed me the space and time to carry the present work.

**Supriya Suresh Chopade**
