ACKNOWLEDGEMENTS

One would like to express deep gratitude to Dr. Neelaka Jhanji for her invaluable criticisms and guidance during the course of preparing this work. Many thanks are also due to my friend Charanjit S. Atalak, who lent both pleasure and purpose to the largely arid task of scholastic spadework; and to S. Chaukin for constant encouragement.

I am also grateful to Panjab University, Chandigarh, for giving me a scholarship to undertake this work; and to all colleagues in the Department of Philosophy of this university for bearing my presence with such patience and kindness. Thanks are due to Mr. Shashi Kant Sharma for helping me prepare this manuscript.
