Acknowledgement

Words are often too weak to express one’s inner feeling of indebtedness to one’s benefactors. The same difficulty haunts me in penning down my deep sense of gratitude.

First of all, with all my humility and sincerity, I bow before the ‘Almighty’ who put strength in me to do and accomplish the research work in adverse situations.

Next to God, with deep sense of gratitude, I express my profound indebtedness to my esteemed supervisor Dr. Ravinder Kaur, Principal, Malwa Central College of Education for Women, Ludhiana for her valuable guidance, empathetic approach, encouragement and patience which made it possible for me to accomplish this task.

I cannot fail to record my gratitude to the Late Dr. Shashi Kala, my former guide who initiated me in the realms of research.

I express my sincere thanks to Chairperson, Department of Education, Panjab University, Chandigarh for providing required facilities and academic support for completion of this research work.

I am pleased to extend my sincere thanks to Dr. Sarabjit Kaur and Dr. Sunil Dutt for their continuous support and inspiration. My whole-hearted gratitude to Principal Dr. Surinderpal Kaur Dhillon and all the staff members of Khalsa College of Education, Ranjit Avenue, Amritsar for their ready support and encouragement, without which it would have been difficult to complete this project.

I express my sincerest thanks to all those researchers and authors whose work I have quoted in my thesis. I gratefully acknowledge their valuable thoughts which became cementing proportions in the present investigation.
I owe much indebtedness to Principals, Teachers, and students of schools who cheerfully helped me in carrying out experimentation work. It would not have been possible without their cooperation. I extend my appreciation to Biology teachers and experts who have contributed their innovative and ideas to develop instructional package and achievement test for this study.

It would not have been possible for me to fulfill my dream without the support of my in-laws, my husband, daughter and son. I extend my thanks to my husband Saranpal Singh for his cooperation, encouragement and suggestions while developing package and analysis of data. My daughter Kaur and son Jasroop Singh motivated me and gave me strength during the investigation.

All may not be mentioned but no one is forgotten. By these remember all the persons who helped me for reaching at the end of this work.

In spite of the best efforts, ventures of this kind are not likely to be error-free, human errors, some inaccuracies, ambiguities and typographic mistakes responsible for any remaining error.
