ACKNOWLEDGEMENTS

It is a pleasure to thank the many people who made this thesis possible.

It is difficult to overstate my gratitude to my Ph.D. supervisor, Prof. Ch. V. Ramana Murthy. With his enthusiasm, his inspiration, and his great efforts to explain things clearly and simply, he helped to make mathematics fun for me. Throughout my thesis-writing period, he provided encouragement, sound advice, good teaching, good company, and lots of good ideas. I would have been lost without him.

I don’t find words to express my gratitude about the Doctorate couple in Mathematics, Prof. V.V. Sobha and Prof. B.D.C.N. Prasad who actually initiated the idea of doing research work in me.

I am heartily thankful to Dr. Suripeddi Srinivas, Senior Professor, Department of Applied Mathematics, Vellore Institute of Technology, Vellore, for his valuable suggestions to prepare my thesis.

I express my sincere thanks to all the authorities of Acharya Nagarjuna University, Guntur and in particular to Prof. M. Surya Narayana Murthy, Prof. K. Pandu Ranga Rao and Dr. B. Satyanarayana of Department of Applied Mathematics, A. N. U – Dr. M. R. Appa Rao Campus, Nuzvid, for providing me with the necessary facilities to carry out my research work.

A symbol of goodness and kindness, K. Rama Bramham, the chairman of Usha Rama College of Engineering and Technology, without whose indispensable permission, my idea of doing Ph.D would have not come true. A symbol of simplicity, kind hearted and a silent administrator, Dr. G.V.K.S.V. Prasad, the principal of Usha Rama College of Engineering and Technology, who controls different emotions in me is a source of inspiration in my research work. I thank Mr. A. Seetharam, Technical Director and Mr. K.S.R. Prasad, Head, Department of S&H, URCE, for their encouragement and support. I would like to acknowledge the invaluable help given by my co-scholar and colleague Mr. G.V. Ramana Reddy.
