ACKNOWLEDGEMENTS

Language is the most eloquent vehicle of human expression, yet on occasions one finds it difficult to find appropriate words to express a feeling fully. As such it is not an easy task to formulate in words the gratitude which I feel for my venerated teacher and guide Dr. Vandana Mehra, Associate Professor, Department of Education, Panjab University, Chandigarh, for enabling me to complete my thesis and inspiring me to strive for excellence. It is in fact because of her untiring efforts, versatile guidance, and encouraging attitude that I have been able to complete this thesis. I am extremely grateful to her for her expert guidance, pliant suggestions and constructive criticism. As my supervisor, she has all along been considerate, helpful and cordial in her searching criticism from time to time. Indeed she is one who rekindles in me to traverse the untapped paths. I gratefully acknowledge her complete involvement with this piece of work.

I owe my profound thanks to Dr. Nandita, Chairperson, Department of Education, and all the faculty members for providing the necessary facilities, guidance and support against all odds during the course of study. I am thankful to all members of non-teaching staff of the department especially Mrs. Devi, Mr. Bhandari and Mrs. Kamal for their generous and timely help and cooperation.

I acknowledge my indebtedness to all the authors whose works have either been consulted or quoted very often in the presentation of this research report.

I would like to thank all the school teachers of Chandigarh, Mohali and Panchkula who have contributed a lot by filling up the study tools. I am also thankful to Mr. Rakesh Mohindra for helping me with data analysis.

My heartfelt thanks or I would say words are not sufficient to express my gratitude towards my husband, Mr. Amrinder Singh, for his innumerable suggestions and unstinted help throughout my thesis work. I thank him for his constant support and suggestions that have certainly made the difference. The help rendered by him literally, by day and by night cannot be expressed in few words. He has always been there to depend upon. The credit of this achievement goes to him.
I am also indebted to my loving daughter Bisman for bearing inconvenience during this study.

Words have deceived me today when I pen down my gratitude to my mother in law Mrs. Paramjit Kaur Sehgal. Without her whole hearted support, love and encouragement this project could never have been completed. I gratefully acknowledge the care, help, support, love and encouragement offered by my father in law, Mr. Manmohan Singh Sehgal.

No choice of words will suffice to adequately register gratitude to my family, as this thesis is culmination of my in laws’ aspirations and my parents’ inspirations. I also extend my unforgettable and unfailing respect to my parents who have desired that I should attain the highest degree in education. It is because of their constant encouragement that I have been able to complete this work.

I also owe a lot of thanks to all those people who helped me directly and indirectly in completing this research work.

Last but not the least, I would like to thank God who gave me strength and endurance which enabled me to complete this piece of work.
