Acknowledgement

"Purity, patience and perseverance are the three essentials to success" I practically experienced these, through my research guide Dr. M. Mani during my course of research. With my deep sense of gratitude, indebtedness and sincere reverence, I thank my research supervisor Dr. M. Mani, Principal Scientist and Head, Division of entomology and Nematology, Indian Institute of Horticultural Research, for suggesting me this work and giving valuable guidance throughout the execution of my research work.

I have immense pleasure in expressing my sincere thanks to Dr. B. B. Hosetti, Chairman, Department of postgraduate studies and research in Applied zoology, Kuvempu University, for his constant encouragement as co-research supervisor, inspiration, kindness and valuable suggestions which enabled me to carry out my research work successfully.

I extend my sincere thanks to Prof. V. Vasudev, Department of postgraduate studies and research in applied zoology, Kuvempu University, for his suggestions and guidance to embellish the study.

I also owe my thanks to former Director, Indian Institute of Horticultural Research, Dr. P. Parvatha Reddy and present Director, Dr. S. D. Shikamany, for providing facilities to do the research.

I am thankful to Dr. A. Krishnamoorthy, Principal Scientist, Division of Entomology and Nematology, Indian Institute of Horticultural Research, Bangalore, for his constant support and concrete suggestions during my course of research work.
My sincere thanks to Dr. C. Gopalakrishnan, Senior Scientist, Dr. H. R. Ranganath, Senior scientist and Dr. P. N. Gangavisalakshi, Senior Scientist, IIHR, Bangalore for timely help during course of study.

I am thankful to Dr. N. S. Rao, Principal Scientist, Project Directorate of Biological control, Bangalore for timely help during my course of study. Thanks are also due to Dr. J. Poorani, Scientist, PDBC Bangalore for identification of natural enemies of spiralling whitefly.

I am extending my thanks to The Head, Department of Botany, University of agricultural sciences, Bangalore for identification of host plants of spiralling whitefly.

My sincere thanks to Dr. R. Venugopalan, Scientist (Statistics), IIHR, Bangalore for helping me in the statistical analysis.

I recall my greatfulness, the co-operation extended to me by Dr. Radha D. Kale Professor and Head, Department of zoology, and Dr. A. N. Balakrishna, Associate professor, Department of agricultural microbiology, University of agricultural sciences, G. K. V. K, Bangalore, during the time of thesis writing.

I thank the librarians of IIHR and PDBC, Bangalore for providing the necessary library facilities.

Thanks are also due to G. L. Pattar, Technical officer, Department of Entomology, IIHR, Bangalore, for helping in laboratory studies.
I am also thankful to Indian council of Agricultural Research for providing me senior research fellowship in NATP 'Development of Biocontrol technology for the exotic spiralling whitefly Aleurodicus dispersus Russell (Aleyrodidae : Homoptera) in horticultural crops with special reference to guava' to do the research.

I Thank to all my friends, N. Rama, Sreedevi, Manoj, Shivakumar, Shankar, Chandru, Naveed, Sringeshwar, Bobby, Lakshmipathy, Umashankar, Govindaswamy and Renukesh for timely help during my work.

With blessings from God, I sincerely thank to all my family members for their encouragement and moral support.

Bangalore
May 2004

M.S. Dinesh
