ACKNOWLEDGEMENTS

I am indebted to my guide Prof. Dr.C.Narasimha Rao, Head of the Dept. of Rural Development, Acharya Nagarjuna University for encouragement and day to day guidance in designing the complete primary and secondary data, work plan and sample study. Without his constant encouragement, this thesis should not have come to this stage.

I am beholden to my close friends Dr.I.Balasubba Rao, Principal SVKP Degree College, Markapur and Dr P.V.V.Satyanaryana, Department of chemistry, Acharya Nagarjuna University for encouraging me at all stages in collecting the data for the research work. I gratefully acknowledge the assistance given to me by Mr.B.Laxminaryana, Mr.V.Srinivas Reddy, Miss.Grase, Miss.Rukmini, Mrs.Koteshwaramma and Mrs.Sumalatha research scholars of Department of Rural Development, Acharya Nagarjuna university, and Mrs.Jayasree, project associate at NIRD, Hyderabad who assisted me in the completion of this work.

I am also thankful to the generosity shown to me by Mr.K.Prasad, chairman, Creative Active People Action For Rural Development Society, Markapur and Mr.R.Ravindranath A.I.T.U.C Leader and staff of school run by Assist India at Rayavaram, Markapur, who accompanied me to the mines and factories and helped me in getting the detailed and responsible answers from the child labour and parents. I also thank the
authors of different literature and text books from which the secondary data is freely drawn.

Lastly but not the least I am thankful to the library staff of N.I.R.D, Rajendranagar, Hyderabad and my son Mr.V.Goutham, M.Tech for rendering their assistance in all aspects for the preparation of this thesis work.

(V.Prabhakara Rao)
