ACKNOWLEDGEMENT

It gives me profound pleasure to express my heart felt gratitude to my esteemed guide, G. KUMARA Verma, under whose able supervision this research work has been executed.

I am indebted to him for his stimulating instructions, constructive Criticism, intellectual inspiration and for the laborious work of going through the manuscript.

It is because of his most efficient guidance and constant encouragement that I have been able to complete this work.

I am also extremely thankful to Dr. H.L. WASUDEV, my co-guide, for his keen interest in the process of my research project.

(VEENA DHIR)
