ACKNOWLEDGMENTS

I owe with regards, my unfeigned gratefulness to my esteemed teacher and guide Prof. (Dr.) S.P. Vij, Chairman, Department of Botany, Panjab University, Chandigarh for his relentless efforts, valuable guidance and meticulous scrutinization of my work. It has been an honour and a privilege to have worked under his kind and able supervision. I am indebted to him for providing me necessary laboratory facilities and opportunities during the entire course of study.

I am also indebted to my co-supervisor Dr. Promila Pathak, Reader, Department of Botany, Panjab University, Chandigarh for her most efficient guidance and constant encouragement, that enabled me to execute this work with finesse.

I am thankful to Mrs. Usha Vij for her affection and encouragement.

My heartiest thanks are due to my research colleagues and friends for their unflinching help and support.

Thanks are due to Mr. Dev Raj Rana and Mr. G.P. Wadwa for their timely help.

Though at the termination of this citation but in high esteem, I express my heartiest gratitude to my family, especially my father, whose constant inspiration, encouragement and support kept me on the track of culmination of this treatise.

The financial support extended by DBT is gratefully acknowledged.
