ACKNOWLEDGEMENTS

I am expressing my heartfelt thanks to Prof. R. N. K. Bamezai, Hon’ble Vice Chancellor, Shri Mata Vaishno Devi University, Katra (J&K) India for his time to time suggestions, guidance and encouragement to complete my research work on time.

Special thanks are due to Prof. N. K. Bansal, former Vice Chancellor, SMVDU, Katra (J&K) India and my M. Tech. guide for his overall help, encouragement and guidance throughout my research career, without which this work would not have completed in this form.

I express my sincere gratitude towards, Dr. S. K. Tyagi, Scientist ‘E’, Sardar Swaran Singh National Institute of Renewable Energy, Kapurthala and formally, Asstt. Professor, SMVDU, Katra for his helpful and guidance throughout my research work. It is greatest privilege for me to work under his guidance. During my research period, I have been deeply impressed by his quality of perseverance and close attention. I feel immense pleasure and proud to put on record my deepest gratitude for his affectionate guidance, valuable instructions, peerless and constructive criticism and constant encouragement. To say the least, this work owes its existence to his generous and invaluable guidance which was available to me all the time and no ostentatious use of words would suffice to express my indebtedness to my supervisor.

I would like to express my sincere thanks to Prof. M. L. Garg, Dean College of Engineering and Mr. Rakesh Sharma, Director, School of Infrastructure Technology Resource Management, SMVDU, Katra for their time to time help and cooperation during this study.
I am also thankful to former head Centre for Energy Studies, IIT Delhi and Dr. V. V. Tyagi, (Research Associate), Mr. V. S. Reddy, Research Scholar, Centre for Energy Studies, IIT Delhi and Mr. A. K. Pandey, Research Scholar, School of Infrastructure Technology Resource Management, SMVDU, Katra for their time to time help and cooperation for collecting the literature, books and other useful materials, besides, arranging the latest research articles whenever required.

I acknowledge with reverence, the eternal inspiration and unending blessings of my father (N. P. Anand) and mother (Pushpa Anand). Beyond words, some people make a world of differences by their presence, my parents, for their strength of purpose and source of direction. The constant encouragement and a deep desire for fulfillment of long cherished dream of my parents, brother, sister and my in-laws were the inspiring factors that worked at the base of academic venture of this kind.

Above all, I am greatly indebted to my wife Dr. Anshu and my sons Sahil and Arnav for the constant encouragement and affection showered on me during the course of my research work. I must admit that without their benevolent support, this work would not have been successfully completed.

In the last but not the least, special thanks are due to my M. Tech. teachers, Dr. Suparn Sharma, and Dr. Vishal Singh. I finally thank all the well wishers and friends who directly or indirectly help me in successful completion of my work.

September, 2012                        Sanjeev Anand
