ACKNOWLEDGEMENTS

“For with God nothing shall be impossible”

Our lives are beautifully fashioned by God. He has a perfect plan for all. This thesis is a part of God’s marvelous plans in my life and I thank God for giving me such an incredible opportunity. I am ever grateful to God, the Creator and the Guardian, and to whom I owe my very existence. I would like to express my deep appreciation and gratitude to the following people for helping me to complete this doctoral thesis.

I feel myself incapable, to express my deep sense of gratitude and respect verbally or in written form, but nevertheless, it gives me an immense joy and happiness to record here that I was able to successfully complete my research work under the able guidance and supervision of Prof. C. Rambabu, Department of Chemistry, Nuzvid PG. Center, Nuzvid, for his keen interest in the work, constant guidance and encouragement. My sincere and hearty gratefulness to my guide for enabling me to complete successfully my scholastic mission.

I express my gratitude to Prof. M. Saratchandra babu, GITAM University, Visakhapatnam, for his supervision, advice, and guidance from the very early stage of this research as well as giving me extraordinary experiences throughout the work. His expertise in the field of research, patience, hard work, simplicity, devotion, sacrifices and his passion for research work and teaching are worth mentioning. He is a true guru as he practices what he preaches. To have Sir to supervise my work is one of GOD’s greatest gifts to me.

To the role model for hard workers in the lab, In the first place, I would like to say my special thanks and I am bound by boundless gratitude to Scientist (E2) B. Sreedhar, Inorganic & Physical Chemistry division, IICT, Hyderabad, without him, my thesis doesn’t get this shape. He provided me unflinching encouragement and support in various ways. His truly scientist intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as
a researcher and a scientist want to be. I am indebted to him more than he knows. I am proud to record here for getting opportunity to work with an exceptionally experienced and eminent scientist like him.

I deem it up a proud privilege to record my profound sense of gratitude to Prof. Mandava Basaweswararao, Krishna University, Machilipatnam, for his benign approach, inspiring intellectual sustenance, effective guidance, helpful discussions and constant inspiration towards my doctoral endeavour.

I acknowledge with gratitude The Management, GITAM University, Visakhapatnam, for their support in the successful accomplishment of my research work.

My special word of thanks to Dr. K. Ramakrishna, Head of the Department of Chemistry, GITAM University, Visakhapatnam, for providing the necessary facilities to carry out my research work.

My sincere thanks to the members of non-teaching staff of the Department of Chemistry, Dr.M.R.A.R. Campus, Nuzvid and GITAM University, Visakhapatnam, for their valuable support and unfailing help throughout my scientific enquiry.

I would like to thank my research colleagues, Mr. Balakrishna, GITAM and Sreeram, P.B.Siddartha, Vijayawada, whose ideas and shared experiences were invaluable. Thank you to my friend Ms. Keerthi, IICT, Hyderabad, for her constant and consistent scholastic help throughout my research venture.

My sincere thanks to SAIF, IIT Madras, HCU, Hyderabad and IICT, Hyderabad, for doing characterization like SEM-EDAX, TEM, TGA, XRD & FT-IR.
Where would I be without my family? My parents deserve special mention for their inseparable support and prayers. My Father, Ch. Venkateswara rao in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was a child. My Mother, Ch.Laxmi devi, is the one who sincerely raised me with her caring and gently love. I am also thankful to my two sisters for their support and caring.

Words fail me to express my appreciation to my husband, Dr. Venkata Sahitya whose dedication, love and persistent confidence in me. I owe him for being unselfishly let his intelligence, passions, and ambitions collide with mine. He truly is my better half, and I am incredibly lucky to have him in my life.

Waves of thankfulness surge in my heart to my beloved in-laws for their love and consistent support. They have always believed in me and made me feel that I could accomplish anything I set out to do. They have given me the opportunities to be successful throughout my life.

Finally, I would like to thank everybody who was important to the successful research journey of doctoral thesis, as well as expressing my apology that I could not mention personally one by one.

Ch. Satya Vani.
