<tr>
<td>2.1</td>
<td>List of Government Model Senior Secondary Schools of Chandigarh</td>
</tr>
<tr>
<td>2.2</td>
<td>List of Government Senior Secondary Schools of Chandigarh</td>
</tr>
<tr>
<td>2.3</td>
<td>List of Schools Selected</td>
</tr>
<tr>
<td>2.4</td>
<td>Number of Students, School and Sectionwise in the Academic and Vocational Stream Subjects</td>
</tr>
<tr>
<td>2.5</td>
<td>Subjectwise and Sexwise Breakup of the Total Sample.</td>
</tr>
<tr>
<td>3.1.1</td>
<td>Percentile Norms Established on Local Sample in Case of Career Decision Scale.</td>
</tr>
<tr>
<td>3.1.2</td>
<td>Cut off Points for Certainty and Indecision</td>
</tr>
<tr>
<td>3.1.3</td>
<td>Mean's, S.D.'s, SE's, SK and KU for the Total Sample (N=667), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self-Concept, Family Environment and Academic Achievement.</td>
</tr>
<tr>
<td>3.1.3(a)</td>
<td>Scores on Measures of Career Maturity</td>
</tr>
<tr>
<td>3.2.1</td>
<td>Mean's, S.D.'s, SE's, SK and KU for the Total Decided Group (N=503), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.</td>
</tr>
<tr>
<td>3.2.2</td>
<td>Mean's, S.D.'s, SE's, SK and KU for the Total Tentative Group (N=153) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.</td>
</tr>
<tr>
<td>3.2.3</td>
<td>Mean's, S.D.'s, SE's, SK and KU for the Total Academic Group (N=411), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.</td>
</tr>
</tbody>
</table>
3.2.4 Mean's, S.D.'s, SE's, SK and KU for the **Total Vocational Group (N=256)**, on all the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.2.5 Mean's, S.D.'s, SE's, SK and KU for the **Total Boys (N=293)**, on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.2.6 Mean's, S.D.'s, S.E's, SK and KU for the **Total Girls (N=374)**, on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.2.7 Range of Mean's and S.D.'s of the Groups of Total decided; Total Tentative; Total Academic and Total Vocational; Total Boys; and Total Girls on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.1 Mean's, S.D.'s, SE's, SK and KU for the **Sub Group of Arts (N=107)**, on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.2 Mean's, S.D.'s, SE's, SK and KU for the **Sub Group of Medical (N=101)**, on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.3 Mean's, S.D.'s, SE's, SK and KU for the **Sub Group of Non-medical (N=103)**, on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.4 Mean's, S.D.'s, SE's, SK and KU for the **Sub Group of Commerce (N=100)**, on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.
3.3.5 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Stenography (N = 27), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.6 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of LIC (N = 58), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.7 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of GIC (N = 66), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.8 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Computer Technology (N = 25), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.9 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Air Conditioning and Refrigeration (N = 16), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.10 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Structure and Fabrication (N = 12), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.11 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Electronics (N = 15), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.12 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Electrical Technology (N = 13), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.
3.3.13 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Automobile Technology (N=15), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.14 Mean's, S.D.'s, SE's, SK and KU for the Sub Group of Banking (N=9), on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

3.3.15 Range of Mean's and S.D.'s for the Fourteen Subgroups of Academic and Vocational Streams on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

4.1.1 Subjectwise Breakup of the Sample on the Basis of Career Decision Scale

4.1.2 Comparison Between Total Decided (N = 503) and Total Tentative (N = 153) Groups on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

4.1.3 Comparison of Decided (N = 300) and Tentative (N = 111) Students of the Total Academic Group (N = 411) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

4.1.4 Comparison of Decided (N = 214) and Tentative (N = 42) Students of the Total Vocational Group (N = 256) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

4.2.1 Comparison Between Total Academic (N = 411) and Total Vocational (N = 256) Groups on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.
4.3.1 Comparison Between Total Boys (N = 293) and Total Girls (N = 374) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

4.4.1 Comparison of Academic Stream Subjects on Career Decision Making

4.4.2 Comparison of Academic Stream Subjects on the Measures of Career Maturity

4.4.3 T-ratios of Academic Stream Subjects on the Measures of Career Maturity

5.1.1 21x21 Inter Correlation Matrix for the Total Sample (N = 667) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

5.2.1 21x21 Inter Correlation Matrix for the Decided Group (N = 503) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

5.2.2 21x21 Inter Correlation Matrix for the Total Tentative Group (N = 153) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

5.2.3 21x21 Inter Correlation Matrix for the Total Academic Group (N = 441) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

5.2.4 21x21 Inter Correlation Matrix for the Total Vocational Group (N = 256) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.
5.2.5 Inter Correlation Matrix for the Total Boys (N = 293) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

5.2.6 Inter Correlation Matrix for the Total Girls (N = 374) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

5.2.7 Summary Table: Significant Coefficient of Correlation Between the Dependent Variables viz.: Certainty (V1) and Indecision (V2) with the Independent Variables of Career Maturity (V3 - V8), Intelligence (V9), Self Concept (V10), Family Environment (V11 - V20) and Academic Achievement (V21) in Case of Total Decided; Total Academic; Total Vocational; Total Boys; and Total Girls.

6.1 Stepwise Multiple Correlations and Multiple Regression Equations for Certainty (V1) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Sample (N = 667).

6.2 Stepwise Multiple Correlations and Multiple Regression Equation for Indecision (V2) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Sample (N = 667).

6.3 Stepwise Multiple Correlations and Multiple Regression Equations for Certainty (V1) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Academic Group (N = 411).

6.4 Stepwise Multiple Correlations and Multiple Regression Equations for Indecision (V2) and Independent Variables of Career Maturity, Intelligence Self concept, Family Environment and Academic Achievement in case of Total Academic Group (N = 411).
6.5 Stepwise Multiple Correlations and Multiple Regression Equations for Certainty (V₀) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Vocational Group (N = 256)

6.6 Stepwise Multiple Correlations and Multiple Regression Equations for Indecision (V₂) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Vocational Group (N = 256)

6.7 Stepwise Multiple Correlations and Multiple Regression Equations for Certainty (V₀) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Boys (N = 293)

6.8 Stepwise Multiple Correlations and Multiple Regression Equations for Indecision (V₂) and Independent Variables of Career Maturity, Intelligence Self concept, Family Environment and Academic Achievement in case of Total Boys (N = 293)

6.9 Stepwise Multiple Correlations and Multiple Regression Equations for Certainty (V₀) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Girls (N = 374)

6.10 Stepwise Multiple Correlations and Multiple Regression Equations for Indecision (V₂) and Independent Variables of Career Maturity, Intelligence Self Concept, Family Environment and Academic Achievement in case of Total Girls (N = 374)

6.11 Summary of Significant Predictors of Criterion Variables of Career Decision-Making Viz: Certainty (V₀) and Indecision (V₂) from the Independent Variables of Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement from the Groups of Total Sample; Total Academic; Total Vocational;
Total Boys; and Total Girls in Stepwise Multiple Coefficient of Correlation and Regressions.

7.1 8x21 Original Factor Matrix for Total Sample (N = 667) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement

7.2 8x21 Original Factor Matrix for Total Decided Group (N = 503) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement

7.3 8x21 Original Factor Matrix for Total Tentative Group (N = 153) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement

7.4 8x21 Original Factor Matrix for Total Academic Group (N = 256) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement

7.5 10x21 Original Factor Matrix for Total Vocational Group (N = 293) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement

7.6 10x21 Original Factor Matrix for Total Boys (N = 293) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement

7.7 8x21 Original Factor Matrix for Total Girls (N = 374) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement

7.8 8x21 Rotated Factor Matrices for the Total Sample (N = 667) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.
7.9 8x21 Rotated Factor Matrix for the Total Decided Group (N = 503) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

7.10 8x21 Rotated Factor Matrix for the Total Tentative Group (N = 153) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

7.11 8x21 Rotated Factor Matrix for the Total Academic Group (N = 411) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

7.12 10x21 Rotated Factor Matrix for the Total Vocational Group (N = 256) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

7.13 10x21 Rotated Factor Matrix for the Total Boys (N = 293) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

7.14 8x21 Rotated Factor Matrix for the Total Girls (N = 374) on the Variables of Career Decision-Making, Career Maturity, Intelligence, Self Concept, Family Environment and Academic Achievement.

7.15 Significant Loadings on Factor-I for the Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls

7.16 Significant Loadings on Factor-II for the Groups of Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls
7.17 Significant Loadings on Factor-III for the Groups of Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls

7.18 Significant Loadings on Factor-IV for the Groups of Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls

7.19 Significant Loadings on Factor-V for the Groups of Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls

7.20 Significant Loadings on Factor-VI for the Groups of Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls

7.21 Significant Loadings on Factor-VII for the Groups of Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls

7.22 Significant Loadings on Factor-VIII for the Groups of Total Sample; Total Decided; Total Tentative; Total Academic; Total Vocational; Total Boys; and Total Girls

7.23 Significant Loadings on Factor-IX for the Groups of Total Vocational and Total Boys

7.24 Significant Loadings on Factor-X for the Groups of Total Vocational and Total Boys

8.1 Significant Coefficient of Correlation Between the Dependent Variables viz.: Certainty ($V_1$) and Indecision ($V_2$) with the Independent Variables of Career Maturity ($V_3 - V_8$), Intelligence ($V_9$), Self Concept ($V_{10}$), Family Environment ($V_{11} - V_{20}$) and Academic Achievement ($V_{21}$) in Case of Total Sample.

8.2 Summary Table: Significant Coefficient of Correlation Between the Dependent Variables viz.: Certainty ($V_1$) and Indecision ($V_2$) with the Independent Variables of Career Maturity ($V_3 - V_8$), Intelligence ($V_9$), Self Concept ($V_{10}$), Family Environment ($V_{11} - V_{20}$) and Academic Achievement ($V_{21}$) in Case of Total Decided; Total Academic; Total Vocational; Total Boys; and Total Girls
