ACKNOWLEDGEMENT

At the outset, I am immeasurably thankful to my supervisors, Prof. M. Lakshmi Narasu and Prof. B. Madhava Reddy for accepting to guide the conduct of my research work. Their competent guidance, exploratory approach and constant perseverance throughout my research work have been invaluable go-ahead element for accomplishing breakthrough results. Their enormous subject knowledge and querying nature have made me to be always on toes to work for quality in research.

My special thanks are due to Dr. Archana Giri, Head, Dr. A. Uma, Asst. Professor, Centre for Bio-Technology, Institute of Science & Technology, JNTUH, Dr Syed Sultan Beevi, Research Associate, CCMB, Hyderabad, The Management, Dr.S.Venkatesh, Mr. Ravi Kumar and Mr. Ravi Kiran of G.Pulla Reddy College of Pharmacy, Hyderabad for their constant support.

My sincere thanks to Research & Development cell, JNTUH for their prompt acceptance for change of title and extension of time, without which my thesis would not have been possible.

I owe my earnest thanks to my mother and all at home and my TEQIP colleagues at office for their incessant encouragement, help and moral support especially to my wife who supported me in editing the thesis.

Finally, I offer my regards to all of those who supported me in all respects during the research period.

A.V.SRIKANTH
