Acknowledgements

Words are often too frail to express one’s inward emotions of ineffable indebtedness. The same perplexity haunts inside me in penning down my sagacious sense of gratitude and admiration towards my venerable teacher and guide Dr Anupam Sharma. I express my sincere thanks to Dr Anupam Sharma for not only guiding me for my thesis but for helping me understand the finer points and in depth details of my study which have immensely increased my love for my subject. His unflinching support, constant encouragement and divine presence made this thesis a pleasure to complete. Thank you, Sir, for always being there when I needed your guidance.

I owe a profound debt of gratitude to Prof. T. R Bhardwaj, Chairman, University Institute of Pharmaceutical Sciences, P.U., Chandigarh for providing me all the facilities for carrying out this work.

Kind help by Dr Manoj Kumar, Reader in Pharmaceutical Chemistry, University Institute of Pharmaceutical Sciences, P.U., Chandigarh during my research work is appreciated. I will be failing in my duty if I do not express my personal gratitude to Dr Harish Chander, Post doctoral Fellow, Department of Neurochemistry, Staten Island, New York, Mr Ashwani Bhatia, SRF, UIPS, PU, Mr Balbir Singh, Lecturer at Lovely Institute of Technology, Phagwara, Ms Richa Madaan, Lecturer at Baba Mastbnath, Rohtak, Mrs Monika, Lecturer at Guru Gobind Singh College of Pharmacy,
Yamuna Nagar, Ms Vandana Garg, Lecturer at S. D. College of Pharmacy, Barnala and Mr Bijender Singh, Lecturer at Govt. Polytechnic, Uttawar for moral support extended by them through misty clouds. I appreciate selfless help, especially for providing me with standard drugs required in my research studies, rendered by Mrs Mona Gogia, Regulatory affairs, APL Research Centre, Aurobindo Pharma Ltd, Hyderabad.

Significant help, whenever needed, rendered by Sh Satish Sethi, and Pharmacognosy laboratory staff (Mr Mangat Ram, Mr Chanchal, Mr Sudesh, Mr Dharam Chand, Mr Vinod and Mr Gurdev Singh) is gratefully acknowledged.

The financial assistance provided by University Grants Commission, New Delhi for the present research work is duly acknowledged.

Above all I thank ‘Almighty’ without whose mercy it would not have been possible for me to reach this far. I really pray for the grace and favor of God to give me opportunity to have long association with Dr Anupam Sharma in the time to come.
