ACKNOWLEDGEMENTS

Language is the most eloquent vehicle of human expression, yet on occasions one finds it difficult to get appropriate words to express an emotion fully. However, I articulate my feelings truly from the core of my heart to:

Professor (Dr) Bhupinder Singh Bhoop, my revered supervisor, to whom this work owes its conception and credit both. What he has done for me, I could not have accomplished in my entire life span. Through his Socratic questioning, Sir brought me closer to the reality I had initially perceived, eventually enabling me to grasp its rich complexity. His firm belief that a better way can always be found, and his ending quest for excellence, have influenced my approach to research, as well as in daily life. His comments on research drafts are themselves a course in critical thought, which I will always cherish and benefit from. I am yet to see the limits of his wisdom, patience, and selfless concern for his students.

Dr (Ms) Sanju Dhawan, my venerated supervisor, an institution in herself, for her guidance and help throughout the sojourn of this work. Her capacity to combine critique with an immediate empathy and commitment towards her students will always inspire me. Thank you Ma'am for providing me the impetus to carry on quality work on the proposed area!

Prof O P Katare for furnishing the precious fillip and sharing his pearls of wisdom.

Prof V R Sinha, Chairperson of UIPS, for providing the requisite research facilities to carry out my work.

Dr Indu Pal Kaur and Dr Shishu for teaching me the fundamentals of drug delivery.

Dr Baljinder Singh (Additional Professor, PGIMER) and Ms Sarika for helping me in carrying out the gamma scintigraphic studies at the Department of Nuclear Medicine, PGIMER, Chandigarh.

All the volunteers who participated in the gamma scintigraphic studies, viz. Mr Gajanand, Mr Chandra Bhushan Tripathi, Mr Rahul Bhatowa, Ms Mousumi Nandi, Ms Anterpreet Kaur and Mr Aman Singla.

M/s Cipla Pharma and M/s Sun Pharma for providing the ex gratia samples of rivastigmine hydrogen taratarte.
Acknowledgements

The technical and non-teaching staff of UIPS esp. Mr Karam Singh, Mr Chaman Lal, Mr Anil Kumar, Mr Buta Singh, Mr Swaroop Singh, Mr Sahib Singh and Mr Sham Singh, for their timely help and support, and Mr P D Choudhary, Librarian, UIPS, for providing the library facilities. Special thanks to Mr Navtej Singh (SAIF, Panjab University) for rendering the expert technical support.

My friends, Mr Shantanu Bandyopadhyay, Ms Babita Garg and Mr Sarwar Beg, who did much more than their share of co-workers in providing me a chuckling atmosphere at work.

My seniors, Deepak Sir, Rajiv Sir, Amit Sir, Kaisar Sir and Lalit Sir for helping me with their sagacious inputs. Thank you does not seem sufficient but it is said with appreciation and respect.

Some special individuals, Ms Richa Goyal Rai, Dr Virag Sharma, Mr Ranjit Khurana and Dr Ramandeep Singh Bedi, who made this life worth living.

My lab-mates, Mr Basant Amarji, Mr Anshuman Shukla, Ms Poonam Negi and Ms Sheetu, and juniors, Mr Ankur, Mr Manoj, Mr Rattandeep, Ms Sudha, Ms Monica, Ms Anu and Ms Ratandeep, for providing a homely environment.

My father, who made this journey easier with his words of encouragement, and more intellectually satisfying by offering different places to look to expand my theories and ideas. Without his support, this work would not have even initiated.

My deepest gratitude goes to my late mother for her unflagging love and support showered from heavens throughout my life.

All those researchers, scientists, and other people who have worked, written, published and distributed various books, journals, publications, and patents, I have referenced from.

Those experimental animals who had to lay down their lives in making this endeavour successful.

Rishi Kapil
