ACKNOWLEDGEMENTS

It has been my cherished privilege to conduct the present arduous, enervating, time-consuming but challenging research under the kind and able supervision of revered mentor, Dr. J.N. Joshi, Reader, Department of Education, Panjab University, Chandigarh. He proved to be a beacon guide to me and I gratefully acknowledge my sincere indebtedness for his excellent spirit, clear thinking, unfailing interest, gracious and ungrudging assistance, remarkably inspiring, incisive and illuminating guidance, constant encouragement and forbearance right from the beginning of this research to its write-up and completion.

It gives me immense pleasure to place on record my deep sense of gratitude to Dr. Robert L. Thorndike for his sound counsel, useful advice and keen professional involvement in my research project, despite his onerous duties. He also helped me in having access to his original excellent monograph of 1963.

I owe a deep sense of gratitude to Dr. N.J. Entwistle for voluntarily assisting me (through personal communication) to take advantage of his erudite scholarship and resourcefulness of experience. He helped me immensely in grasping some of the complicated issues involved in the study. I also owe my thanks to him for making available the relevant enlightening literature.

I am greatly indebted to Drs. H. Gough, William D. Altus, N. Scott Gehman, S. B. Khan, Lloyd G. Humphreys, K. Barton, R. W. Pickford, A. S. Dhalwal and V. Mohan for furnishing off prints of their
own original articles and also replying to some of the inquiries. I especially owe a profound debt of gratitude to Dr. William W. Farquhar for sending a bulk of relevant original research literature, articles and unpublished or published dissertation abstracts of his own and also of many others.

I wish to express my appreciation to many other authors whose works I have consulted, utilized and often cited in my research report.

I express my sincere thanks to Shri C.M. Behl for his painstaking efforts and ingenuity in making and conducting diversified computer programmes for the huge calculation work involved in the study.

It is my pleasant duty to extend my thanks and gratitude to Dr. V.R. Taneja, Head of the Education Department, Panjab University, Chandigarh, and Shri Gurpreet Singh, Principal, Government Mahendra College, Patiala for rendering help and providing all possible facilities for smoothly conducting and completing this project.

My special thanks are to the heads of the different institutions for their ready assistance and to the students who acted as the subjects during the different stages of data collection. I have fond remembrance for their exemplary spirit throughout the study.

Besides, I extend my hearty thanks to Mr. K.R. Mittal for carefully and efficiently typing the whole manuscript.

I owe a lot to many others who helped me directly or indirectly in my project, and who will always remain unnamed. Still I hope, they will understand and accept my sincere thanks.

CHANDIGARH
JUNE, 1975.
