ACKNOWLEDGEMENTS

From the formative stages of this thesis, to the final draft, I owe an immense debt of gratitude to my guide and advisor, Dr.K.M.LakshmanaRao, for his continuous support in the Ph.D. program. His sound advice and careful guidance were invaluable as I attempted to examine the transition. It has been an honor to be his First Ph.D. student. He showed me different ways to approach a research problem and the need to be persistent to accomplish any goal. I appreciate all his contributions of time, ideas, to make my Ph.D. experience productive and stimulating. The joy and enthusiasm he has for my research was contagious and motivational, even during tough times in the Ph.D. pursuit. He offered me so much advice, patiently supervising me, and always guiding me in the right direction. I've learned a lot from him, without his help I could not have finished my dissertation successfully.

I am greatly indebted to Mrs.Sunitha, Manager, Bharat Electronics Ltd for helping in the graphical interfacing and module additions in software programming for my analysis. She helped me to develop my idea and vision towards my requirement using the software skills which made my dissertation more effective.

I am thankful to Mrs. V.Padmavathi for helping me in collecting and processing the data. She has worked hard for getting the data required for the thesis and contributed with unconditional help in formulating the final draft of the dissertation. Her encouragement
and help made me feel confident to fulfill my desire and to overcome every difficulty I encountered.

I am thankful to Mrs.V.Haritha and Ms.P.Srikala for analyzing the data and also I appreciate their software skills which fetch me for completing my dissertation.

I want to express my appreciation and gratitude to my M.Tech Students of 2005 and 2006 batch for their support and effort in collecting the data required for my thesis. I also extend my sincere thanks to Municipality offices for providing the satellite data for my thesis. I also express my thanks to Mrs. Srilatha, Ms. Amaravathi and Mrs. Pushpa for their support in thesis drafting.

I would like to thank my family and friends for all their love and encouragement, for my parents who supported me in all my pursuits. And most of all for my loving, supportive, encouraging, and patient husband whose faithful support during all stages of this Ph.D. is so appreciated

Finally, and most importantly, I would like to thank the almighty God, for it is under his grace that we live, learn and flourish

To each of the above, I extend my deepest appreciation.

JAYASREE. K
