Acknowledgements

It gives me a great pleasure to express my gratitude to all those people who have actively contributed in my Ph. D. work and supported me in this amazing journey. First and foremost, I would like to thank the God Almighty, since without his blessings I could never have accomplished this.

I express my heartfelt appreciation to my supervisors Dr. D. R. Saini and Dr. S. H. Sonawane for their wholehearted support, intellectual guidance, constructive suggestions and thought-provoking discussions during my doctoral research endeavor for the past five years. They have tremendously helped me to expand the horizon of my thinking and working abilities to a great extent. I am inspired by their positive and optimistic attitude as well as precise yet versatile working style towards research. I am indebted to them for being my supervisors.

I express my deepest gratitude to my mentor Prof. (Dr.) A. B. Pandit (Institute of Chemical Technology, Mumbai) for his valuable guidance, everlasting encouragement, support and blessings during my research work. His deep knowledge, optimistic approach for research problems and high scientific standards has set a remarkable example for me. His motivation in terms of “Excellent” and “Good Work” has helped me to build strong confidence in myself.

I am also thankful to Dr. D. S. Bhatkhande (Head, Chemical Engineering Department), Dr. R. M. Jalnekar (Director), and Dean of Vishwakarma Institute of Technology for their valuable administrative support and contribution to motivate me for research work. I am extremely grateful to Prof. (Dr.) Anand Bhalerao (Principal, BVDU-COE, Pune) for his constant support, encouragement and motivation throughout my Ph. D. tenure. Further, I would like to express my sincere thanks to my lab mates Prof. S. R. Shirsath, Prof. C.V. Kapadnis for their valuable support during my Ph. D. work. I would like to express special thanks to Dr. Virendra K. Saharan, Dr. Dipak V. Pinjari and Mr. Mandar Badwe for their valuable support during my summer research fellowship work at Institute of Chemical Technology, Mumbai.

Of course no acknowledgment would be complete without giving thanks to my parents and in-laws, for all of the sacrifices that they have made and their eternal blessings. Special thanks to my mother-in-law for her constant support and motivation to complete the Ph. D. work. She had taken the responsibility of whole family for me getting sufficient time for research. I salute her dedication towards the family. I am
very much grateful to my mother for her tireless efforts to nurture many commendable qualities in me and providing me a good foundation with which to meet life. With a deep sense of gratitude and respect, I would like to express sincere thanks to my late father, for being a constant source of inspiration throughout my life. I feel very proud of my parents and in-laws and love them very much. I am very much grateful to my husband Mahesh, daughter Sakshi and son Vedant for their love, patience and understanding. They allowed me to spend most of the time on the Ph. D. work and have been very supportive during my entire Ph. D. tenure.

Last, but not the least, I would also like to thank my friends Veena, Shamala, Vandana and Shilpa for encouraging me in all respects. Big thanks to all of you and my apologies to those whom I may have missed out unintentionally. Thank you.
