ACKNOWLEDGEMENTS

I express my deep sense of gratitude to:

My revered research supervisor, Dr.B. Rajasekhar Reddy, Lecturer in Department of Microbiology, S.K.University, Anantapur, for his incessant supervision, valuable guidance enormous encouragement during the period of this investigation I will always be grateful for his untiring efforts, patience and affectionate help. I rank this opportunity to express my humble thanks to Mrs.S. Vasundhara for her help.

Prof. Venkateswarlu for his reassuring hand, valuable suggestion and discussions especially during absence of my supervisor when he was abroad in U.K on a Commonwealth Academic Staff Fellowship. I express my special word of gratitude to him.

My teachers, Dr.R. Ramanjaneyulu, Dr.V. Rangaswami, Dr.P.B.N. Charyulu and B. Venkatappa for their encouragement and cooperation at every stage in the completion of this work.

Dr.C. Sudhakar, Lecturer in Department of Botany for his help during the period of my work.

All staff members of Bio-science who helped me directly and indirectly in the successful completion of my course.
My coresearchers, J. Veeraswamy, T. Padmavathi, B. Bharathi, C. Sreenivasulu, G. Sreenivasulu, K. Sreenivasulu for their help.

Non-teaching staff of Microbiology Department, M.D. Ismail C. Narayana, N. Nagaraju.

Mr. A. Thimmappa, for neat and prompt typing of manuscript.

Last, but not least, to my parents and Brothers, P. Krishna and Kesavulu for their help and affectionate treatment during this study.

P. SHARADA DEVI.
