LIST OF TABLES

Table No. .............................................................................................................. Page No

Table 3.1 Distribution of students, Parents, and Teachers as per school ........... 69
Table 3.2 Distribution of students as per medium of instruction, Gender, Religion,
Type Of school and Caste .................................................................................. 69
Table 3.3 Interpretation of Z-Score......................................................................... 71
Table 3.4 Split –Half reliability of SVT .................................................................. 72
Table 3.5 Inter-correlation of Values ....................................................................... 72
Table 3.6 Scoring Procedure .................................................................................. 73
Table 3.7 Norms for interpretation of Modernization Level.................................. 73
Table 3.8 Test-Retest correlation coefficients ......................................................... 74
Table 4.1 Frequency and Percentage distribution of Value Preferences among Total
Students ................................................................................................................... 79
Table 4.2 Frequency and Percentage distribution of Value Preferences among Male
Students ................................................................................................................... 81
Table 4.3 Frequency and Percentage distribution of Value Preferences among Female
Students ................................................................................................................... 82
Table 4.4 Frequency and Percentage distribution of Value Preferences among Hindu
Students ................................................................................................................... 84
Table 4.5 Frequency and Percentage distribution of Value Preferences among
Buddhist Students ................................................................................................. 85
Table 4.6 Frequency and Percentage distribution of Value Preferences among
Muslim Students ................................................................................................... 86
Table 4.7 Frequency and Percentage distribution of Value Preferences among Jain
Students ................................................................................................................. 87
Table 4.8 Frequency and Percentage distribution of Value Preferences among Open
Category Students ................................................................................................. 89
Table 4.9 Frequency and Percentage distribution of Value Preferences among OBC
Students ................................................................................................................... 90
Table 4.10 Frequency and Percentage distribution of Value Preferences among SC
Students ................................................................................................................... 91
Table 4.11 Frequency and Percentage distribution of Value Preferences among ST &
NT Students .......................................................................................................... 92
Table 4.12 Frequency and Percentage distribution of Value Preferences among
English Medium Students .................................................................................... 94
Table 4.13 Frequency and Percentage distribution of Value Preferences among
Marathi Medium Students .................................................................................... 95
Table 4.14 Frequency and Percentage distribution of Value Preferences among
Unaided School Students ...................................................................................... 97
Table 4.15 Frequency and Percentage distribution of Value Preferences among Aided School Students
Table 4.16 Frequency and Percentage distribution of Value Preferences among Parents
Table 4.17 Frequency and Percentage distribution of Value Preferences among Teachers
Table 4.18 Frequency and Percentage distribution of Attitude towards Modernization among Total Students
Table 4.19 Average score of Attitude towards Modernization among Male and Female Students
Table 4.20 Average score of Attitude towards Modernization among Hindu, Buddhist, Muslim and Jain Students
Table 4.21 Distribution of Students based on caste
Table 4.22 Average score of Attitude towards Modernization among Open, OBC, SC, ST and NT Students
Table 4.23 Average score of Attitude towards Modernization among English and Marathi Medium Students
Table 4.24 Average score of Attitude towards Modernization among Unaided and Aided School Students
Table 4.25 Difference between Values for Male and Female Students
Table 4.26 Comparison of Values of Mean Square Variance for students belonging to Hindu, Buddhist, Muslim & Jain Students
Table 4.27 Comparison of Values of Mean Square Variance for students belonging to Open, OBC and SC/ST/NT Category
Table 4.28 Difference between Values for English and Marathi Medium Students
Table 4.29 Difference between Values for Unaided and Aided School Students
Table 4.30 Comparison of Values of Mean Square Variance for students, their Parents and Teachers
Table 4.31 Significance of difference between the mean scores
Table 4.32 Regression of parents and teachers values on student’s values
Table 4.33 Overall influences of Values of parents and teachers on the student’s Values
Table 4.34 Regression of modernization on student’s values
Table 4.35 Regression of dimensions of modernization on student’s values
Table 4.36 Influences of student’s attitude towards modernization on the values of students
