**CHAPTER I**  
INTRODUCTION

1.1 Context of the study

1.2 Concepts and indicators of reproductive and child health status

1.3 Maternal and child health: global scenario

1.4 Maternal and child health status: Indian scenario

1.5 Maternal and child health status: Kerala scenario

1.6 Health status of tribes: an overview

1.7 Maternal and child health care service utilization: basic problems and issues

1.8 Review of literature

1.9 Statement of research problem

1.10 Importance of the study

1.11 Objectives of the study
1.12 Hypothesis

1.13 Methodology

1.13.1 Sources of data

1.13.2 Sample design

1.13.3 Data gathering instruments

1.13.4 Data management analysis

1.14 Limitations of the study

1.15 Chapter scheme

CHAPTER II THEORETICAL AND CONCEPTUAL FRAMEWORK 72-84

2.1 Introduction

2.2 Socio-economic and demographic factors

2.3 Medical care

2.4 Health Status

2.5 Environmental Factors

2.6 Reproductive health

2.7 Health Behaviour/ utilization of health care services

2.8 Accessibility of Health care services

2.9 Public and private expenditure on health

2.10 Ante- natal Care

2.11 Natal Care (Delivery Care)

2.12 Post natal care
2.13 Breast feeding and complimentary feeding
2.14 Nutritional status of children
2.15 Immunisation of children
2.16 Treatment of Diarrhoea
2.17 Vitamine - A
2.18 Integrated Child Development Scheme
2.19 Contraception
2.20 Family Planning and Welfare
2.21 Neo natal Care
2.22 Demand and supply model
2.22.1 Demand function
2.22.2 Supply function
22.3 Market disequilibrium

CHAPTER III SOCIO-ECONOMIC, DEMOGRAPHIC AND HEALTH PROFILES OF STUDY AREA AND SAMPLE RESPONDENTS 85-127

3.1 Introduction
3.2 Demographic features of wayanad district
3.3 The economy of wayanad
3.4 Health
3.5 Tribal communities of wayanad
3.6 Demographic characteristics of tribals in wayanad
3.7 Features of tribal communities in wayanad
3.8 Health status among tribals in wayanad
3.9 Profiles of tribal population in Sulthan Bathery taluk

3.9.1 Demographic Profile of Tribals in Bathery Taluk
3.9.2 Social Indicators of Sample Respondents
3.9.3 Economic conditions of Sample Respondents
3.9.4 Health Profiles of Tribal Population in Sulthan Batheriy Taluk

CHAPTER IV MATERNAL AND CHILD HEALTH DETERMINANTS IN KERALA: AN OVERVIEW

4.1 Introduction
4.2 Basic health indicators in Kerala
4.3 Maternal health status in Kerala
4.4 Child health status in Kerala
4.5 Health and health care situations among tribes in Kerala

4.5.1 Maternal health status among tribes in Kerala

4.5.2 Child health status among tribes in Kerala

4.5.3 Health seeking behavior and pattern of utilization of health care services among tribes in Kerala

4.5.4 Government interventions to improve health status of tribal communities in Kerala

CHAPTER V PERCEPTION ABOUT MATERNAL AND CHILD HEALTH CARE SERVICES AMONG TRIBES: AN EMPIRICAL ANALYSIS

5.1 Introduction

5.2 Perception about maternal health care services

5.2.1 Perception about ante natal, natal and post natal care services

5.2.2 Awareness about family planning methods

5.2.3 Perception about sexually transmitted diseases (stds) and hiv/ aids

5.2.4 Awareness about voluntary organization

5.2.5 Awareness about integrated child development scheme
5.2.6 Awareness about health insurance programme for mothers and children

5.3 Perception about child health care services

5.3.1 Awareness about feeding practices

5.3.2 Awareness about immunization coverage

5.3.3 Awareness about integrated child development scheme Services among children

CHAPTER VI DEMAND FOR AND SUPPLY OF MATERNAL AND CHILD HEALTH CARE SERVICES AND MAJOR REPRODUCTIVE HEALTH PROBLEMS AMONG SAMPLE RESPONDENTS: AN EMPIRICAL ANALYSIS

6.1 Introduction

6.2 Demand for maternal health care services

6.2.1 Access to ante natal care services

6.2.2 Utilization of natal care services

6.2.3 Post natal check up taken

6.2.4 Complications during pregnancy, delivery and post partum period
6.2.5 Use of family planning method
6.2.6 Access to integrated child development scheme services for mothers
6.2.7 Benefit received from health insurance programme for mothers and children
6.2.8 Laparoscopic surgery done

6.3 Demand for child health care services
   Provision of colostrums, prelactal food and supplementary food to the children
6.3.1
6.3.2 Vaccination among children
6.3.3 Sickness among children
6.3.4 Mortality among children
6.3.5 Access to ICDS service for children
6.3.6 Access to services from primary health centre and sub Centres

6.4 Reproductive health problems among mothers and access to health care services
6.5 Availability of maternal and child health care services among sample respondents
6.5.1 Availability of health facility (distance to health centre)

6.5.2 Services from hospitals

6.5.3 Services from health agents and voluntary organizations

6.5.4 General problems of sample respondents

CHAPTER VII FINDINGS, SUGGESTIONS AND CONCLUSION 234-244

Introduction
