ACKNOWLEDGEMENTS

The work contained in this thesis was carried out in Research center of Sinhgad Institute of Management at University of Pune, India.

I am especially grateful to Dr. Y.S. Vaishampayan for his constant help, encouragement and most of all for giving me the opportunity to work under his supervision. Dr. Vaishampayan enthusiastic support, cheerful attitude, patience, advice and expert supervision have been major contributing factors towards the completion of my work in this exciting area of Financial Management.

I Sincerely express my deep regards and gratitude to Dr. S.U. Gawade (Head, Research center of Sinhgad Institute of Management at University of Pune, India.) for giving important suggestions and granting help me right from the beginning until the end of the this project.

I wish to express my warmest thanks to all staff of Research center of Sinhgad Institute of Management at University of Pune to help and support me from the beginning till end.

I am indebted to my parents and parents in-law who have always supported me and encouraged me throughout my career to achieve my quest for knowledge, my wife Dr. Maria Cheraghi for her constant encouragement, help and cheerful attitude have been contributing factors towards the completion of my project, my son Amirreza for his patience and understanding, my sisters and sister in-law and my brothers in-law for their morality support.
