Pursuing a Ph.D. Degree is both painful and enjoyable experience. It’s just like climbing a high peak, step by step, accompanied with bitterness, hardships, frustration, encouragement, trust and with so many people’s kind help. Though it will not be enough to express my gratitude in words to all those people who helped me, I would still like to give my many, many thanks to all these people.

I am very much indebted to my honorific guide Dr Syed Azharuddin, Associate Professor, Department of Commerce, Dr Babasaheb Ambedkar Marathwada University, Aurangabad, for accepting me as his Ph.D. student when I presented him my research proposal. Thereafter, I was enabled through Creation, Transmission and Dissemination of Knowledge. He offered me so much advice, patiently supervising me, and always guiding me in the right direction. I appreciate all his contribution of ideas, time, and support to make my Ph.D. experience productive and stimulating. He transferred to me his research links and suggested me the necessary readings for pursuing Ph.D. research.

The joy and enthusiasm he has for this research work was contagious and motivational for me, even during tough times in
the Ph.D. pursuit. I’ve learned a lot from him, without his help I could not have finished my thesis successfully.

Special thanks to Prof. Dr. W.K.
