List of Figures

Figure 1.1: Size of the Manufacturing Sector in India and GDP ............................................... 5
Figure 1.2: Major Indian Automotive Manufacturing Hubs ...................................................... 7
Figure 1.3: Per Capita Passenger Car Penetration ..................................................................... 8
Figure 1.4: Changing Car Sales Composition ............................................................................ 9
Figure 1.5: Trend in Automobile Sales and Export ................................................................... 9
Figure 1.6: Indian GDP growth Vs Annual Passenger Vehicles Volumes .............................. 10
Figure 1.7: Typical illustration of RSSC aspects in supply chain ........................................... 12
Figure 1.8: Key Motivation for RSSC study ........................................................................... 13
Figure 1.9: Research Schema for this Research ....................................................................... 16
Figure 2.1: Categorization of Research Database and Papers in this Research Context .......... 20
Figure 2.2: Research Database and Papers Grade ................................................................. 21
Figure 2.3: Literature Classification based on Journals ........................................................... 22
Figure 2.4: Categorization of papers based on Journal ............................................................ 23
Figure 2.5: Literature Classification Scheme for Present Research ........................................ 25
Figure 2.6: Research Database and Papers ............................................................................. 27
Figure 2.7: RSSC Literature Review: Key Segments .............................................................. 28
Figure 3.1: An Overview of Research Methodology adopted in Present Context ................... 52
Figure 3.2: Flow chart of research methodology adopted for present work ............................ 53
Figure 3.3: Questionnaire for Assessment of Secure Supply Chain (Study 1) ......................... 62
Figure 3.4: Summary of Responses from different Automotive Industries ............................ 68
Figure 3.5: Demographic–Designation of Respondents .......................................................... 69
Figure 3.6: Demographic– Experience of Respondents ............................................................ 69
Figure 3.7: Demographic– Qualification of Respondents ......................................................... 70
Figure 3.8: Demographic– Focus area of Respondents ............................................................ 70
Figure 3.9: Demographic – Need of Secure Supply Chain in Industry ................................. 71
Figure 3.10: Demographic – Maturity of Organization for Secure Supply Chain ................. 71
Figure 3.11: Demographic– Respondents Designation ............................................................ 78
Figure 3.12: Demographic– Respondents Experience .............................................................. 79
Figure 4.1: Flow Chart of the Chapter ..................................................................................... 84
Figure 4.2: CFA Model of SCR, SCS and SCRSM ............................................................... 103
Figure 4.3: Models 0, 1, and 2 (Adapted from Biennstock et al., 1997) ................................. 105
Figure 4.4: Models 0, 1, and 2 (Adapted from Biennstock et al., 1997) ................................. 105
Figure 5.1: Flow Chart of the Process ................................................................................... 111
Figure 5.2: Demographic Profile Of Respondents For AHP Study ....................................... 117
Figure 5.3: The Flowchart of the Analytic Hierarchy Process .............................................. 119
Figure 5.4: A Simple AHP Hierarchy .................................................................................... 120
Figure 5.5: The Decision Hierarchy Structure for Supply Chain Solution Strategy ............. 123
Figure 5.6: Pair Wise Comparison of Criteria’s And Alternatives ......................................... 124
Figure 5.7: Composite priority Weights for Critical RSSC Success Factors ......................... 125
Figure 5.8: Alternative Selection and Synthesis Based on Pair wise Comparison ................. 128
Figure 5.9: Sensitivity Analysis of AHP Models ................................................................. 130
Figure 5.10: Performance Sensitivity Analysis ..................................................................... 131
Figure 5.11: Dynamic Sensitivity Analysis ........................................................................... 131
Figure 5.12: Gradient Sensitivity Analysis ........................................................................... 132
Figure 5.13: Head to Head Sensitivity Analysis .................................................................... 133
Figure 5.14: The Decision Hierarchy Structure for SSC Solution Strategy ......................... 136
Figure 5.15: Solution through Pairwise Comparison of Criteria’s and Alternatives .............. 137
