ACKNOWLEDGEMENT

I express my sincere thanks to the Management, the Vice Chancellor, Dr. D.S. Ramachandra Murthy and the Registrar, Dr. M. Shanmugham of St. Peter’s University, Avadi, Chennai, for providing all necessary facilities for completing this thesis work successfully.

I warmly express my deepest sincere gratitude to my supervisor Dr. P. Partheeban, Professor and Dean (Academic), St. Peter’s College of Engineering and Technology, Avadi, Chennai for giving me a unique opportunity to work on such an important topic. I consider myself fortunate to work under his supervision.

I would like to express my special appreciation to my DC member, Dr. N. Vijayalakshmi, Sr. Professor in the Department of Civil Engineering, Sathyabama University, Chennai for her patient and circumspective guidance and support. I am grateful to another DC Member, Dr. M. Thanikachalam, Professor, Department of Civil Engineering, Prathyusha Institute of Technology and Management, Chennai for his constant encouragement, advice and motivation during my research work.

I warmly thank Dr. V.B.M. Sayana, Professor and Head, Dr. P. Asha, Professor, Department of Civil Engineering, St. Peter’s University, for their encouragement and providing all necessary facilities in the department to carry out the research work successfully. I express my sincere thanks to Dr. L. Mahesh Kumar, Director (Academic) and Dr. K. Balagurunathan, Advisor, Dr. S. Gunasekaran, Dean (R & D), St. Peter’s University, for their constant encouragement, advice and motivation during my research work.
It’s my fortune to gratefully acknowledge the support of some special individuals. I whole heartedly thank Dr. R. Rani Hemamalini, Professor and Head, Department of Electronics and Communication Engineering, for her support, help, generous care and motivation extended all along for the completion of the thesis. I sincerely thank Dr. B. Shanthini, Professor and Head, Department of Information Technology, for her support and help provided in the design and development of software and website portal for online transmission of measurements and I am thankful to Dr. D. Asha Latha, Professor and Head, Department of English, St. Peter’s College of Engineering and Technology for her help in proof reading of this thesis.

My sincere thanks are due to the teaching and non-teaching staff members and students of Civil Engineering Department, St. Peter’s University and students of Information Technology Department, St. Peter’s College of Engineering and Technology, for their help and assistance during the execution of my research work.

I am indebted to M/s Vi Micro Systems, Perungudi, Chennai for having helped in assembly of various parts for the design and development of Air Quality Monitoring Device to carry out this research work.

I express my heartfelt thanks to my wife, loving parents and parents-in-law, affectionate children and friends for their moral support.

HEMADRI PRASAD RAJU
