ACKNOWLEDGEMENTS

From the depth of my heart, I express my deep sincere gratitude to the Almighty for the Blessings He has bestowed upon me to do this work.

Any attempt to list the people and opportunities with which my life has been richly blessed would be like trying to count the stars in the heaven. Yet among there are some people whose profound impact deserves special acknowledgement.

I am immensely pleased to place on record my profound gratitude and heartfelt thanks to my Advisor, Dr. Rajan Katoch, Asstt. Scientist, Department of Chemistry and Biochemistry, COBS, CSKHPKV for his able guidance during my research who suggested the topic, extended all facilities and provided inspiring guidance for the successful completion of my research work. I deem it as my privilege to work under his able guidance. I will ever remain grateful to him.

I emphatically extend my loyal and venerable thanks to worthy members of my advisory committee, Dr. V. K. Suri (HOD, Deptt. of Soil Science), Dr. M. K. Gupta (Assoc. Professor, Microbiology), Dr. Y. S. Dhaliwal (Professor, Food Science and Nutrition) and Dr. Som Dutt (Scientist, IHBT) for their timely help, support and valuable suggestions during the course of my degree.

Thanks are duly acknowledged to Dr. C.K. Oberoi, Head, Department of Chemistry and Biochemistry for his counsel and cordial help so generously provided. I will be forever, grateful to my teachers Dr. Nageswer Singh, Dr. C.P. Awasthi, Dr. Kamal Mohini and all faculty members of Department of Chemistry and Biochemistry for their ever ready help and support which made things easier for me. Thanks are also due to Sh. Shakti Chand and Mrs. Nisha for their timely help and co-operation. I will be failing in my duty if I do not extend sincere thanks to Dean, Postgraduate Studies and Dean, College of Basic Sciences for providing necessary facilities.

I should also not mince words to express thanks to my seniors, Vandana, Diksha, Kalpana, my friends and juniors, Aroma, Sheetanshu, Meenakshi, Swati, Shweta, Ragini and Megha for their whole hearted cooperation and joyful company during the pursuit of this study. I also acknowledge my all old friends from HPKV and my neighbours for their well wishes. I express my sincere thanks to Mrs Anjana Katoch (RA, Biological control lab) for her help.

At this juncture, I think of my parents whose selfless sacrificial life, great efforts and unceasing prayers has enabled me to reach the present position in life. They are my supporting pillars, their heartful blessings and firm faith has translated my dreams into reality. I am forever indebted to my grandparents who always believed in givingstrong educational wings to their daughter and their encouragement in achieving my goal. With celestial smiles, I would like to thank my sweet little brother, Kanav who kept me in an exalted state even during the hectic moments of stress and strain.

All may not be mentioned but none is forgotten.

Needless to say all errors and omissions are mine.

Place : Palampur

Dated: day of January, 2013.
