I take this opportunity to express my thanks and gratitude to my honourable guide and teacher Dr. Jagdish Saran Sharma, Ph.D. Library Science (Michigan, USA), University Librarian-cum-Professor, Panjab University, Chandigarh, who has always been a great source of inspiration to me. Without his able guidance I would not have been able to complete this task.

Although my work is influenced by many great writers and thinkers in the field of Classification, I would like to express my thanks to the following: Mr. D. J. Foskett, whose book *Classification and Indexing in the Social Sciences* has been of great help to me; Mr. B. C. Vickery, whose writings have thrown great light on Faceted Classification; and Mr. J. E. L. Farradane for his co-operation and assistance. I owe a special debt to Miss V. K. Gilbert, Head of Library Services, Aslib for being so helpful.

My special thanks goes to Professor A. P. Srivastava and Mr. Girija Kumar for their critical suggestions and stimulating discussions.

I gladly acknowledge my debt to Dr. U. K. Tikku, Ph.D., Library Science (Pittsburg University) for giving me patient hearing. Mr. Roshan Lal Arora my friend and colleague assisted me in many ways, for which I am grateful.

Lastly, I would like to express my appreciation and indebtedness to the wide range of instructions, encouragement and support which I received from my friends, colleagues and members of my family.
