ACKNOWLEDGEMENT

First and foremost I would like to thanks Lords Nataraja and Thirupathi Venkateswara who have given me the power to believe in myself and pursue my dreams. I could never have done this without their blessings.

I am extremely grateful to Dr. S. Sivakumar, Assistant Professor in Physics, Faculty of science, Annamalai University, who introduced me to the field of my work by suggesting the problem and supervised the work at all stages, his painstaking efforts in training students as well as his thoroughness in the subject has enabled me to complete this work, I am greatly indebted to his guidance, valuable discussion and constant encouragements during the research program.

I wish to express my thanks to Dr. S. Barathan, Professor and Head, Department of Physics, Annamalai University, for generously allowing me to make all facilities.

I am extremely thankful to Dr. B. Rajya, Assistant Professor of Biotechnology, Annamalai University, for his constant encouragement, throughout this study and provide me Laboratory facilities.

I owe my thanks to The Dean, and The Medical Superintendent, RMMC&H, Annamalai University, for giving permission to keep my experimental mice in animal house.

I acknowledge my heartfelt gratitude to Dr. S. Ravikumar, Animal Welfare Officer, Mr. V. Albert Singh, Officer In-Charge, Central Animal House, RMMCH and all staff members for their help to maintaining and feeding the animals.

I express my heartfelt thanks to Mr. K. Rajeshwaran, Mr. P. Arunagiri, Mr. T. Silambarasan, Mr. R. Prabhu, Mr. T. Tamilselvan and Ms. T. Rajeswari for their timely help and co-operation during lab work and unhesitating help and constant encouragement in completing my research work.

I extend my heartfelt thanks to Dr.V.Ramasamy, Dr.P.VasanthaRani and Dr.P.Sivagurunathan, Professors, Department of Physics, Annamalai University for their moral support.

I am always grateful to Dr.S.Kumar, Dr.H.Saleem, Dr.D.GovinTharajan, Dr. C. Manoharan and Dr. S. Bakshyalakshmi, Associate Professors, Department of Physics, Annamalai University, for their value bearing suggestions.
I will never forget to remember of Dr. N. Shanmugam, Dr. G. Viruthagiri, Dr. K. Raghu, Dr. K. Balasubramanian, Dr. S. Dhanapandian, Dr. N. Krishnakumar, and Dr. R. Gobi, Assistant Professor, Department of Physics, Annamalai University, who were always a great support in all my struggles and frustrations in my research carrier.

I wish to thank Dr. D. Geetha, Dr. S. Akilandeswari, Dr. R. Ezhibavai, and Mrs. I. Kalaarasi, Assistant Professor, Department of Physics, Annamalai University, who have helped me at various stages of my research life.

I am grateful to Dr. B. Shanthish, Professor, Dr. G. Sivakumar, Associate Professor, and Mr. B. Gobinath, Assistant Professor, Centralized Instrumentation and Service Laboratory (CISL), Department of Physics, Annamalai University, for recording FT-IR, TG-DTA and SEM-EDX.

I thank the Indian Institute of Technology (IIT), Chennai, and Central Electrochemical Research Institute (CECRI), Alagappa University, Tamilnadu, members, for recording the FT-IR, FT-Raman, and XRD spectra.

I am grateful to Dr. R. Gowrishankar, Assistant Professor, Department of Physics, Sri Satya Sai Institute of Higher Learning, Puttaparthi, Andhra Pradesh, India, for recording XRD Spectra.

I wish to express my sincere thanks to Dr. S.B. Meenakshisundaram, Professor and head, and Dr. S. Kablan, Professor in Chemistry, Annamalai University for their timely help for recording the FT-IR spectra.

I consider it a great privilege to the Professor and Scientist Dr. K. Kathiresan, Dean of Marine Sciences, CAS in Marine Biology, Annamalai University for his timely help for recording the ICP-OES.

I also thank, the CISL Staff members, Department of Physics, and Staff members, Department of Chemistry, Annamalai University for their unstinted help in this work.

I express my heartfelt thanks to Professor Dr. C. S. Vijayalakshimi, M.D., and technician P. Balaji, Vainsnavi Laboratory, T. Nagar, Chennai, Tamilnadu, India for provided me Histopathological and Biochemical parameters studies.

It is my duty to thank Mr. M. Amirthalingam, Programmer, Mr. R. Selvakumar, Assistant Programmer and all other non-teaching staff members of the Physics department, for the help they rendered.
I would like to address my special thanks to the unknown reviewers of my thesis, for accepting to read and review this thesis.

I am also thankful to Librarian, General Library and Department Library, for utilizing their help in the study.

It gives immense pleasure to thank one of my teacher Dr. Gopal Pradhan, Principal Scientist, State Pollution Control Board, Government of Sikkim, for his valuable help and suggestions.

It gives mammoth delight to thank to Ministry of HRDD, Government of Sikkim, for provided me Scholarship, University endowment fellowship and also from University Grants Commission (UGC), New Delhi, India. Major Research Project F. No. 40-447/2011 (SR).

My heartfelt thank to my senior and Junior research scholars from Department of Physics and neighbouring Departments for their valuable help in the course of my study.

I would like to thank my senior Dr. J. Sivakumar and, beloved doctoral juniors Mr. A. Venkatesan and Mr. P. Soundararajan, Department of Physics, Annamalai University, by helping me in many ways for the study.

Many thanks to my close friends at Sikkim: Archana Rai, Laxman Karki, Nirmal Sharma, and Jyoti Sharma, for lending all supports that I needed throughout my stay in Tamil Nadu.

Finally, I am deeply and forever indebted to my beloved father Mr. Gopi Krishna Khatriwada and mother Tulasha Devi Khatriwada, and My Sisters Durga Devi, Dil Kumari and Bal Kumari Khatriwada and Sisters in laws for encouraging and inspiring me for their moral support throughout my research work.

✍ Chandra Prasad Khatriwada
