ACKNOWLEDGEMENT

My foremost gratitude goes to God Almighty—for blessing me with the requisite guidance, knowledge and strength to complete this journey. The journey was tough I admit, but all thanks to God for giving me patience and courage to withstand problems, all ups and downs throughout this period which made it equally comfortable as memorable. I would like to thank everybody who was important for the successful realization of my thesis.

It is an impeccable fact that every mission needs a spirit of dedication and hard work but more than anything else, it needs proper guidance. With a deep sense of gratitude, I wish to express my sincere thanks to my research supervisor Dr. Baljinder Kaur, Assistant Professor, Department of Biotechnology, Punjabi University, Patiala. Composed of numerous qualities worth emulating she epitomizes encyclopedic knowledge combined with technical brilliance and intellectual perfection. Her constant guidance, affectionate encouragement, affection, painstaking efforts inspired me to put in extra hard-work up to the best of my ability and made me work more meticulously and efficiently to complete this dissertation in such an elegant form.

I thank University Grants Commission (UGC) for bestowing me with the UGC research fellowship for meritorious students (UGC-BSR-SRF) during this period which made the journey free of financial calamities. I also revered thanks to UGC for their financial assistance as a major research project entitled “Metabolic engineering of LAB isolate for biotransformation of ferulic acid to vanillin” to my guide Dr. Baljinder Kaur. I gratefully acknowledge Dr. Masafumi Noda, Assistant Professor, Hiroshima University, Japan, for providing me shuttle vector pLES003 for my molecular work during the course of my research work.

I sincerely thank Prof. Praveen P. Balgir for providing me her lab facilities, necessary advice, support for my research work and Prof. Neelam Verma, Dr. Minni
Singh, Dr. Sheema Garcha for their opportune guidance, constant inspiration, pulsative behavior, affection and keen personal interest throughout my Ph.D period.

I am deeply indebted to Prof. Manish Puri (Head), Prof. Ramsarup Singh (Former Head), Prof. Praveen P. Balgir (Former Head), Prof. Aruna Bhatia, Dr. Balwinder Singh Sooch, Dr. Ranjeeta Bahari and my other respected teachers, Department of Biotechnology, Punjabi University, Patiala for providing me necessary research facilities and for their constant support and insights.

All my laboratory colleagues and friends are entitled to my deepest sense of appreciation for their ever willing and timely assistance throughout this period. I feel complacement to put on my sincere thanks to Dr. Balvir Kumar for providing me an opportunity for Ph.D under guidance of Dr. Balsinder Kaur and for his help during my Ph.D work. “Thank you” dear Rajinder madam and Sachin sir for your cooperation, support and encouragement all the time. I am also thankful to Dr. Rahul Joshi, Dr. Manish, Dr. Vijay Kumar, Dr. Dhruba Kumar, Dr. Prithwesh, Mr. Vineet, Mr. Krishan, Hemantpreet Kaur, Deepak, Bharti Mittu, Gundeep kaur, Gaganjot Kaur, Navneet Kaur, Tejinder Kaur, Avtar Singh, Puneet Kaur, Deepika, Balsinder Singh, Ashish, Rupinder Pal Singh, Tarandeep Singh, Gurpreet Singh, Sehenaj, Monika, Gurpreet Kaur, Navpreet, Shivani, Kanika, Aman, Sukhpreet and all research scholar of Botany Department for their kind cooperation, support and encouragement.

I wish to reciprocate feeling of thanks to all non-teaching and laboratory staff of the Department especially Mr. Karamjeet Singh, Vikramjeet Singh, Moninder Singh, Mr. Indersen and all non-teaching staff of the Department for their genuine support during my research work.

I am very much thankful to SAIF NIPER Mohali and GenScript USA Pvt. limited for spectra analysis and molecular work.
The most special indebtedness, heartfelt thankfulness and gratitude go to my dear most grandparents (late. Prankrishna Chakraborty & late. Kamala Chakraborty) and parents (Shri. Sukumar Chakraborty & Smt. Dipti Chakraborty). I can’t ever thank them enough for making me what I am - I owe them my existence and survival. Thank you God for giving me such lovely grandparents and parents who have always showered me with their incessant love, persistent support, unfailing back up, continuous encouragement and numerous blessings. They lifted my spirits when I would lay down my arms, boosted up my morale every time I would give up urging me to give it another try when an experiment would fail and showering unconditional care, concern and affection always. I ‘Thank you’ my grandparents and parents with all my heart and soul.

Also I would like to take the opportunity to mention here the gratefulness I have for my maternal uncle Shri. Dipankar Pariccha for his encouragement and inspiration that he offers me always and forever. A special word of thanks and heartfelt gratitude go to my loving and caring wife Mrs. Sudeshna Chakraborty, for her unflinching help, constant support and patience. Here is no word to verbalize my gratitude and regards to all maternal family members especially late. Hrishikes Pariccha, Jharna Pariccha, Shivani Pariccha, Shivasankar and Chandita Pariccha, Riya Pariccha, sister and her family Snehasis and Moumita Goswami with little Aleya, all in law family members late. Sanjay Nanda and Susama Nanda, brother Debanjan and Rajkumar Chakraborty, uncle Bablu Tripathi, Milan Panda and Bismupada Chakraborty, aunt Tripti Tripathi and Tapati Panda and all other family members who soulfully provided me their constant support and affectionate encouragement at every step of my career enhancement.

Although I have made an effort to name all but if your name is not listed, rest assured that my gratitude is not less than for those listed above.

(Debkumar Chakraborty)
