PREFACE

This thesis, submitted to the Panjab University in fulfilment of the requirements for the degree of Doctor of Philosophy, consists of the details of the comprehensive study carried out to find out the energy and protein requirements for maintenance and milk production in buffaloes. The literature available on this aspect is very limited, therefore, the study may throw some light regarding the optimum feeding of this species of animals.

The author wishes to express his sincere thanks and deep sense of gratitude to Dr. V.D. Mudgal, M.Sc., Ph.D., Professor of Animal Nutrition, National Dairy Research Institute, Karnal, for his able and unstinted guidance without which the implementation of plan and successful completion of the present investigation would have not been possible.

The author is indebted to Dr. D. Sundaresan, Director, National Dairy Research Institute, Karnal, Dr. S.P. Arora, Head, Dairy Cattle Nutrition and Physiology Division, Dr. R. Magarcenkar, Head, Dairy Cattle Genetics and Breeding Division, Dr. S.B. Basu, Animal Geneticist and Mr. P.A. Sharma, Farm Manager, for providing necessary facilities and for the interest shown in these studies.

I am particularly thankful to Mr. Bhopal Singh, Junior Statistician for his advice on the design of the experiments and statistical analysis of the data.
Thanks are also due to Dr. B.R. Patle, Associate Professor (Animal Nutrition), Veterinary College, Jabalpur and Mr. M.V.N. Rao, Research Officer (Animal Physiology) for their useful suggestions.

The whole-hearted co-operation of several of my colleagues, especially Dr. D.D. Sharma, Dr. R.S. Ludri, Mr. P.K. Nagpal, Mr. T.K. Walli and Mr. A. Shrivastav, during these investigations is greatly acknowledged.

Thanks are also due to Mr. Karan Singh, Mr. V.P. Singh and Mr. Om Parkash for their help and assistance.

The author wishes to thank also Mr. Gita Ram, Mr. Chander Bhan, Mr. Prem and Mrs. Durga Khurana for their help in the Laboratory maintenance and in the management of animals.

Last, but by no means least, I want to thank my wife for her patience and understanding during the course of these studies.

C.K. Kurar
