ACKNOWLEDGEMENT

I am extremely grateful to Dr. Krishne Gowda, for introducing me to the topic and guiding me through the various aspects of the thesis and research procedure. I am deeply indebted to him for his perpetual encouragement. But for his constant effort and guidance, it would not have been possible to complete this work. I thank Dr. Krishne Gowda, profusely, for having stood by me through all stages of the research work.

I really have no words for the refinement brought about in the thesis, by the learned advice and words of wisdom of Prof. M. V. Sridhara, to whom I express my gratitude.

I extend a special thanks to Dr. Mahesh, Director and Staff of the Institute, who have given me assistance and support during the period of my PhD work at Institute of Development Studies.

I am very grateful to Dr. S. Bisaliah, Chairman, and Dr. M. K. Venkatesh, Principal of BMS College of Engineering, Bangalore for having whole-heartedly encouraging me and permitting me to complete my work at the University of Mysore.

Ms. Mahalakshmi Karnad, Lecturer, B.M.S. College of Engineering, really needs to be applauded for extending invaluable assistance in the preparation of the various illustrations of the thesis. Special thanks to Dr. M. N. Chandrashekar, Assistant Director of Town Planning, Bangalore Metropolitan Region Development Authority, for being with me when it was required the most.

I have to thank Mrs. Sumitra Rajan, my wife, for helping in collecting relevant newspaper articles and my son, Mr. Vaibhav Rajan, HP-Research-Division, also requires special mention for his continuous support.

(Sridhar Rajan)
