Acknowledgement

It gives me great pleasure in expressing my most profound gratitude and regards to Prof. Biman Kumar Dutta, Dean, School of Environmental Science and my supervisor for his constant guidance, strict supervision, sustained inspiration, constructive criticism and whole hearted co-operation during the course of investigation. Prof. Dutta had to endure and resolve a lot of my inconveniences as I worked from a distant place and he never failed to pacify me from feeling alienated when I am in the department. Dr. P. Kumar Singh, associate professor, Centre of advanced studies in life sciences, Manipur University and my co-supervisor guided me with such wisdom and competence that my entire burden was unduly alighted. I am lucky to have them as my supervisors, otherwise, it would have been a far dream to complete such a challenging course. The work is truly the outcome of the capability of my two supervisors and I am proud to have made a modest contribution to its accomplishment.

I am extremely grateful to Dr. S.N. Puriji, Vice-chancellor, Central Agricultural University, Imphal for his unfailing wisdom and prompt decision that made me endeavor this challenging course and complete it. In fact, at the age of 55, who would permit me to undergo for Ph. D. studies. I am really indebted to him.

Major portion of my experiments were carried out at the department of Soil Science and Agricultural Chemistry, College of Agriculture, Central Agricultural University, Imphal and I am grateful to the Dean and Head, SSAC for providing all the available facilities at my disposal for the success of my research.

I extend my sincere gratitude to Mr. Murli Mohan Khetan, indostat service, Hyderabad for their valuable help in the complicated statistical analysis of the genetic diversity, without which this investigation could not have been completed.

I express my sincere gratitude to the entire faculty staff and my fellow colleague scholars, Smt. S. Joylani Devi, Smt. M. Haripriya devi, Smt. M. Roma Devi and Km. N. Rebeka Devi for helping me in conducting some of the experiments. I am also extremely grateful to
Km. Gangarani Devi, research scholar, department of ecology and environmental sciences for the helps extended to me by taking pains during the course. They always kept open arms whenever I need of them and their service. Indeed, I am deeply impressed by their amiability and assistance.

Prof. Indira Sarangthem was always willing to lend a helping hand throughout my work. I would be failure in my part if I do not remember my academic life colleagues, Sri N. Gopimohon Singh, assistant professor (SG) in statistics and Sri N. Brajendra Singh, assistant professor (SG), PBG for extending their help whenever I approached. I am really indebted to them. I also heartily thank my own meager staff, Mr. L. Ranjit Singh (Lab Assistant) and Mr. M. Mikrang (Lab Attendant) who rendered a lot of their services.

I wish to convey my thanks to the department of earth Sciences, Manipur University for providing maps of the agro-climatic zones.

My sincere thanks are also to Mr. Nilu Kanta Das, Irongmara Bazar, near Assam University, Silchar for the pain he has taken in printing the thesis manuscript during a speculated period of time.

Above all my family became the chief cornerstone in motivating my lethargy and perseverance throughout this work; I sincerely owe my achievements to them.

S. Jekendra Singh
Asst. Professor (SG)
