ACKNOWLEDGEMENTS

I feel great pleasure in expressing my deep sense of gratitude to Her Highness Queen Sirikit under whose encouragement I was able to complete my thesis. The generosity of Queen in the form of Scholarship helped me immensely to study abroad. Without this I could not have thought of fulfilling my desire to get higher education. Her Highness has been the epitome of generosity, kindness and constant source of inspiration. The encouragement, I got from her to pursue my studies is invaluable. I owe my every achievement to her. Although I can never give her back what she has done for me. This humble thesis is a very small tribute to her from my side. She has a very big role in my existence. I will remain indebted to her throughout my life. I seek her blessings in my future life also.

I am very grateful to Prof. Harish Sharma (department of education) my supervisor, mentor and leading light in this project. His constant guidance, affection has made it possible for me to complete my thesis. His knowledge of the subject complimented by his kindness and sympathetic behaviour went a long way to imbibe in me the desire to learn more. Words are not enough to express my gratitude to him. It has been my privilege to pursue my higher studies under his guidance. I feel myself extremely lucky and blessed to study under his leadership.

I am also thankful to the chairperson Dr. Subhash Gakjar and all the faculty members of the department of education for providing me the necessary facilities over the years, touching my heart in many ways by their useful support and constructive suggestion and criticism.

I am thankful to my mother who gave me moral support whenever I faced hardships and my confidence was low. Her support was a boon for me in trying times. She inspired and encouraged me to work hard and believe in God.

I cannot forget my boss who gave me financial assistance to continue my studies abroad. She gave me money and memorable moments which I will cherish throughout my life.
I am grateful to various authors and researchers whose works I studied and materials I went through to learn more and support my study with.

There are names not mentioned but remembered so fondly for what ever big or small part they have played directly or indirectly in my life, from amongst family, friends and well wishers who I hope will understand and accept my sincere gratitude.
