1. INTRODUCTION TO THE RESEARCH PROBLEM

1.1. Introduction ................................................................. 1
1.2. Reason for selection of ‘Geography’ for the research study .................. 2
1.3. Importance of Geography .................................................. 3
1.4. Structure of Geography .................................................... 5
1.5. Teaching methods of Geography .......................................... 8
1.6. Current status of subject Geography ..................................... 9
   1.6.1. Defects of the present system of teaching of Geography to secondary
          classes ................................................................. 10
1.7. The present teaching-learning scenario .................................. 11
1.8. Recommendations regarding the use of technology for teaching in India ........ 13
1.9. Impact of technology......................................................... 15
INDEX

1.10 Computer-Assisted Instruction .................................................. 16
   1.10.1 Types of CAI ........................................................................ 18
   1.10.2 Advantages of CAI ................................................................. 22
1.11 Significance of the present research ............................................. 25
1.12 Statement of the research problem .............................................. 27
1.13 Definition of terms in the title ..................................................... 27
1.14 Objectives of the study ................................................................. 30
1.15 Hypothesis ................................................................................... 31
1.16 Population .................................................................................. 32
   1.16.1 Sample .................................................................................. 32
   1.16.2 Sample size ......................................................................... 32
1.17 Tools ............................................................................................. 32
1.18 Methodology ............................................................................... 32
1.19 Analysis of data ......................................................................... 35
1.20 Scope and limitations ................................................................. 35

2. REVIEW OF RELATED LITERATURE

2.1 Review of related literature ......................................................... 36
   2.1.1 Introduction ............................................................................ 36
   2.1.2 Meaning of Computer-Assisted Instruction ............................. 38
   2.1.3 Definition of Computer-Assisted Instruction ........................ 39
   2.1.4 The origin of Computer-Assisted Instruction ......................... 42
   2.1.5 History of Computer-Assisted Instruction .............................. 43
   2.1.6 Programmed Instruction ....................................................... 47
### INDEX

2.1.6.1 Skinner’s linear programming ............................................. 48

2.1.6.2 Crowder’s intrinsic or branched programming ......................... 48

2.1.7 Theoretical foundations of Computer-Assisted Instruction ................ 50

2.1.8 CAI and Learning Theories .................................................... 60

2.1.9 Nature of Computer-Assisted Instruction .................................... 69

2.1.10 Mechanism of Computer-Assisted Instruction .............................. 73

2.1.11 Characteristics of Computer-Assisted Instruction .......................... 75

2.1.12 Types of CAI programs .......................................................... 79

2.1.13 Purpose of Computer-Assisted Instruction .................................... 93

2.1.14 Advantages of Computer-Assisted Instruction ............................... 94

2.1.15 Disadvantages of CAI ............................................................. 97

2.2 Review of researches ...................................................................... 97

2.2.1 Review of researches in Geography ............................................. 98

2.2.1.1 The status of researches in Geography in India ............................ 98

2.2.1.2 Review of researches in Geography in India ............................... 102

2.2.1.3 Review of researches in subject Geography in Maharashtra .......... 102

2.2.1.4 Review of researches on use of CAI for the subject Geography ........ 104

2.2.2 Review of researches on Computer-Assisted Instruction .................. 105

2.2.2.1 Review of research on efficacy of CAI in various fields ................ 105

2.2.2.2 Review of researches based on the comparison of CAI with traditional classroom teaching ............................................................ 107

2.2.2.3 Review of researches on testing efficacy of CAI in comparison with other teaching method ............................................................ 109

INDEX

3.4.5.1.1 Validation and pilot study of achievement test................................. 132
3.4.5.2 Opinionnaire ....................................................................................... 133
3.4.5.3 Observation ......................................................................................... 133

3.5 Procedure of the present research study..................................................... 134
3.5.1 Selection and formulation of the research problem .................................. 136
3.5.2 Review of related literature ...................................................................... 136
3.5.3 Annual Planning of selected units ............................................................ 137
3.5.3.1 Steps included in planning for conventional classroom teaching .......... 138
3.5.3.2 Lesson planning for conventional classroom teaching ......................... 139
3.5.3.3 Steps of annual planning for teaching CAI ......................................... 141
3.5.3.4 Unit planning for the selected units ..................................................... 143
3.5.4 Development of CAI programme ............................................................ 143
3.5.4.1 Steps in designing and developing CAI programme ............................ 146
3.5.5 Content Analysis ..................................................................................... 154
3.5.6 Validation of CAI by subject experts and subject teacher before teaching .... 156
3.5.6.1 Pilot testing of CAI program ............................................................... 156
3.5.6.2 Administration of pretest ...................................................................... 156
3.5.6.3 Administration of CAI programme ..................................................... 157
3.5.6.4 Teaching to control group students .................................................... 157
3.5.6.5 Administration of posttest .................................................................... 158
3.5.7 Administration of Rubric ........................................................................ 158

3.6 Time Frame ............................................................................................... 159
4. ANALYSIS AND INTERPRETATION OF DATA

4.1. Introduction ................................................................................................................. 161
4.2. Data collection ............................................................................................................. 161
4.3. Analysis of the data ................................................................................................. 162
   4.3.1. Quantitative analysis ......................................................................................... 163
      4.3.1.1. Statistical analysis of quantitative data ...................................................... 163
   4.3.2. Analysis of qualitative data ............................................................................... 171
      4.3.2.1. Opinionnaire to get experimental group students opinion about CAI programme ................................................................. 171
      4.3.2.2. Opinion of experimental group students about CAI ................................ 172
      4.3.2.3. Expert’s opinion regarding CAI programmes ......................................... 173
      4.3.2.4. Observation of experimental group students while learning through CAI  ................................................................. 174
      4.3.2.5. Observation of experimental and control groups students while attempting the attempt the achievement tests ...................................................... 175
4.4. Conclusions .............................................................................................................. 176

5. SUMMARY, FINDINGS, CONCLUSIONS AND RECOMMENDATIONS

5.1. Summary .................................................................................................................. 177
   5.1.1. Introduction ......................................................................................................... 177
   5.1.2. Need of the research problem ............................................................................ 178
   5.1.3. Importance of the present research .................................................................. 179
   5.1.4. Statement of the research problem .................................................................... 180
   5.1.5. Definition of the terms in the title ..................................................................... 180
