CHAPTER – I: INTRODUCTION

1.1 Introduction

1.1.1 Science Concept and Nature

1.1.2 Need for Teaching Science

1.1.3 Objectives of Learning Science

1.1.4 Factors Influencing Teaching Learning Science

1.1.5 Methods of Teaching Science

1.2 Multimedia

1.2.1 Use of Multimedia in School Education

1.3 Theoretical Background

1.3.1 Theory Related to Science Education

1.3.2 Theories Related to Multimedia

1.4 Present Status of Science Education in School

1.5 Need and Significance of the Study

1.6 Title of the Study
1.7 Operational Definition of key items 28
   1.7.1 Multimedia Approach 28
   1.7.2 Knowledge 28
   1.7.3 Skill 28
   1.7.4 Attitude 28
1.8 Variables 29
   1.8.1 Independent Variable 29
   1.8.2 Dependent Variables 29
1.9 Objectives of the Study 29
1.10 Hypotheses of the Study 29
1.11 Sample 30
1.12 Tools Used for the Study 30
1.13 Statistical Techniques Used 30
1.14 Major Steps Involved in the Study 31
1.15 Scope of the Study 31
1.16 Delimitations of the Study 31
1.17 Organisation of the Report 32

CHAPTER – II: REVIEW OF RELATED LITERATURE

2.1 Introduction 33
2.2 Studies Related to Science Education 35
   2.2.1 Studies Conducted at Elementary Level 35
      2.2.1.1 Conclusion 36
   2.2.2 Studies Conducted at Secondary Level 37
      2.2.2.1 Conclusion 44
   2.2.3 Studies Conducted at Senior Secondary Level 44
      2.2.3.1 Conclusion 58
2.3 Studies on Development of Multimedia (Instructional Materials) 59
  2.3.1 Studies Conducted at Secondary level 59
    2.3.1.1 Conclusion 66
  2.3.2 Studies Conducted at Senior Secondary Level and for Teachers 67
    2.3.2.1 Conclusion 72
  2.3.3 Studies Conducted at M.Ed. Level, Teacher Educators and for Specially Abled Students 72
    2.3.3.1 Conclusion 76

2.4 Other Studies Related to Multimedia 76

2.5 Conclusion 85

CHAPTER – III: METHODOLOGY

3.1 Introduction 86

3.2 Design of the Study 87
  3.2.1 Design Selected 88

3.3 Sample 88

3.4 Selection of the Topics 89

3.5 Variables of the Study 90
  3.5.1 Dependent Variables 90
  3.5.2 Independent Variable 90

3.6 Objectives of the Study 90

3.7 Hypotheses of the Study 91

3.8 Tools Used for the Study 92
  3.8.1 Achievement Test 92
    3.8.1.1 Validity of the Test 99
    3.8.1.2 Reliability of the Test 100
  3.8.2 Attitude Scale 101
  3.8.3 Preparation of the Multimedia Approach Materials (MMA) 105
3.9 Classroom Processes in Experimental Group 109
3.10 Classroom Processes in Control Group 110
3.11 Selection of Sample and Experimental Procedure 111
3.12 Statistical Techniques Used 112
3.13 Conclusion 113

CHAPTER – IV: ANALYSIS AND INTERPRETATION OF DATA
4.1 Introduction 114
4.2 Objectives of the Study 115
4.3 Hypotheses of the Study 116
4.4 Variables of the Study 116
   4.4.1 Independent Variable 116
   4.4.2 Dependent Variables 116
4.5 Major Analysis 117
   4.5.1 Analysis of Difference between Mean of Pre Test and Post Test on Achievement of Knowledge in Science of Experimental Group 118
   4.5.2 Analysis of Difference between the Mean of Pre Test and Post Test on Achievement of Knowledge in Science of Control Group 119
   4.5.3 Analysis of Difference between the Mean Gain of Experimental Group and Control Group on Achievement of Knowledge in Science 120
   4.5.4 Analysis of Difference between the Mean of Pre Test and Post Test on Attainment of Skills in Science of Experimental Group 121
   4.5.5 Analysis of Difference between the Mean of Pre Test and Post Test on Attainment of Skills in Science of Control Group 122
   4.5.6 Analysis of Difference between the Mean Gain of Experimental Group and Control Group on Attainment of Skills in Science 123
4.5.7 Analysis of Difference between the Mean of Pre Test and Post Test on Attitude towards Science of Experimental Group

4.5.8 Analysis of Difference between the Mean of Pre Test and Post Test on Attitude towards Science of Control Group

4.5.9 Analysis of Difference between Mean Gain of Girls and Boys with respect to the Achievement of Knowledge in Science for the Experimental Group

4.5.10 Analysis of Difference between Mean of Girls and Boys with respect to the Pre Test on Achievement of Knowledge in Science for the Experimental Group

4.5.11 Analysis of Difference between Mean of Girls and Boys with respect to the Post Test on Achievement of Knowledge in Science for the Experimental Group

4.5.12 Analysis of Difference between Mean Gain of Girls and Boys with respect to the Achievement of Knowledge in Science for the Experimental Group

4.5.13 Analysis of Difference between Mean of Girls and Boys with respect to the Pre Test on Achievement of Knowledge in Science for the Control Group

4.5.14 Analysis of Difference between Mean of Girls and Boys with respect to the Post Test on Achievement of Knowledge in Science for the Control Group

4.5.15 Analysis of Difference between Mean Gain of Girls and Boys with respect to the Achievement of Knowledge in Science for the Control Group

4.5.16 Analysis of Difference between Mean of Girls and Boys with respect to the Pre Test on Attainment of Skills in Science for the Experimental Group

4.5.17 Analysis of Difference between Mean of Girls and Boys with respect to the Post Test on Attainment of Skills in Science for the Experimental Group

4.5.18 Analysis of Difference between Mean Gain of Girls and Boys with respect to the Attainment of Skills in Science for the Experimental Group

4.5.19 Analysis of Difference between Pre Test Mean of Girls and Boys on Attainment of Skills in Science for the Control Group
4.5.20 Analysis of Difference between Post Test Mean of Girls and Boys on Attainment of Skills in Science for the Control Group

4.5.21 Analysis of Difference between Mean Gain of Girls and Boys on Attainment of Skills in Science for the Control Group

4.5.22 Analysis of Difference between Pre Test Mean of Girls and Boys on Attitude towards Science for the Experimental Group

4.5.23 Analysis of Difference between the Post Test Mean of Girls and Boys on Attitude towards Science for the Experimental Group

4.5.24 Analysis of Difference between the Mean Gain of Girls and Boys with respect to the Attitude towards Science for the Experimental Group

4.5.25 Analysis of Difference between Mean of Girls and Boys with respect to the Pre Test on Attitude towards Science for the Control Group

4.5.26 Analysis of Difference between the Mean of Girls and Boys with respect to the Post Test on Attitude towards Science for the Control Group

4.5.27 Analysis of Difference between the Mean Loss of Girls and Boys with respect to the Attitude towards Science for the Control Group

4.5.28 Analysis of Difference between the Post Test Scores of Experimental Group and Control Group on Achievement of Knowledge in Science

4.5.29 Analysis of Difference between the Post Test Scores of Experimental Group and Control Group on Attainment of Skills in Science

4.5.30 Analysis of Difference between the Post Test Scores of Experimental Group and Control Group on Attitude towards Science

4.6 Discussion of Results

4.7 Conclusion
CHAPTER – V: SUMMARY, FINDINGS, IMPLICATIONS, SUGGESTIONS AND CONCLUSION

5.1 Introduction 155
5.2 Title of the Study 156
5.3 Variables of the Study 156
5.4 Objectives of the Study 156
5.5 Hypotheses of the Study 157
5.6 Procedure 157
5.7 Major Steps Involved in the Study 158
5.8 Stages of Experiment 158
5.9 Major Findings of the Study 159
5.10 Educational Implications 165
5.11 Suggestions for Further Research 167
5.12 Conclusion 168
