Acknowledgements

First and above all, I thank God, the Almighty, for making this possible and giving me strength and wisdom throughout. Though only my name appears on the cover of this dissertation, a lot of people have contributed to its culmination. I sincerely owe my gratitude to all those people.

Foremost, I would like to express my sincere gratitude to my supervisor Prof. AJS Bhanwer for his constant encouragement, concrete suggestions, support and meticulous guidance that helped me at each and every step of my research work. Thank you for giving me the freedom to explore on my own and being patient with me throughout my work. I couldn’t have imagined a better mentor and advisor for my study.

I take this opportunity to sincerely acknowledge the Department of Science (DST), Government of India, New Delhi, for providing financial assistance in the form of DST-INSPIRE Junior and Senior Research Fellowship which helped me continue with my work without any impediment.

I duly acknowledge Dr Virinder Singh, Dr. SK Bali, Dr. CN Tickoo, Dr. PS Mokha, Dr. Mohit Nagpal, Dr Rohit Kapoor, Dr Puneet Arora and Dr Muneer Khan for their help and support while sampling, and I also acknowledge the volunteers for their valuable blood samples. I am immensely grateful to Dr Subash Gupta for providing guidance and lab facilities during my sampling in Jammu & Kashmir.

I owe my sincere gratitude to Dr. Anupam Kaur, Head, Department of Human Genetics, Guru Nanak Dev University, Amritsar, for her unwavering help and support. I would like to thank other faculty members; Prof. Sharda Sidhu, Dr. Gursatej Gandhi, Dr. Vasudha Sambyal, Dr Vanita Kumar, Dr. Badrudoza, Dr. Kamlesh Guleria, Dr Manpreet Kaur and Dr Sanjana Mehrotra for their kind support and timely suggestions throughout the course of my research work. I would also like to thank the non teaching staff members of the Department of Human Genetics for their cooperation and help in the administrative work.
I am grateful to Dr. Kawaljit Matharoo for her valuable guidance, motivation, constant help and inspiration. Her constructive criticism and recommendations were vital for my research work and development of this thesis.

I am thankful to my labmates Rubina Sharma, Ruhi Sikka, Ramandeep Kaur, Jasmine Sokhi, Gagandeep Singh, Harkirat Singh Sandhu, Savjot Kaur and Gurvinder Singh for their delightful and stimulating companionship, enthusiastic support and for helping me survive all the stress and not letting me give up.

When we are facing a difficult situation in our lives, it is only our true friends who come to our rescue. They say that true friendship is rare, an adage that I believe to be true. Genuine friendship is something that I have always cherished. I am lucky to have Ruhi, Maggi, Jasmine, Anu and Romil who always have been there during my professional and personal ups and downs in life. They are the people who never questioned and supported me no matter what the circumstances were and kept me motivated.

A special thanks to my family. Words cannot express how grateful I am to my mother, father and younger brother for all of the sacrifices that they made on my behalf and for always believing in me and loving me unconditionally. Their prayers for me was what sustained me so far.

Priyanka Raina
