ACKNOWLEDGEMENTS

This thesis is the result of many a long hour involving arduous research and the culmination of a process that included the constant assistance, support & guidance afforded to me by my fellow academicians whom I am deeply indebted. This achievement been accomplished, in no small measure, due to their sheer professionalism and dedication which they demonstrated time after time. It is to them that I owe my heartfelt thanks and the overwhelming sense of satisfaction that I feel at this stage.

For the past few years there have been several people that have been there for me that I wish to mention. An acknowledgement in my thesis is just a small gesture and doesn’t truly represent how much I appreciate the influence that many people have had on my life.

Words are not adequate to express my profound sense of gratitude to Prof. Dr.V.S. Shrivastava, Ph. D., Post Doctoral (S. America), Ex-TWAS-UNESCO, visiting professor, recipient of the ‘Best teacher’ and Dr. Arvind Kumar memorial’ awards, Principal, G.T.P College, Nandurbar for providing me hard training, insisting on clarity of presentation and accuracy of facts as well as his consistent encouragement, support and valuable advice with a continuous stream of suggestions that have guided me throughout the whole period of my research. His Pleasant personality, insight and incisive opinion and close attention to details assured a happy completion. I take this opportunity to thank him for his benign guidance, direction and help without which this Research work would not be possible. I especially would like to thank him for always being accessible and making research his top priority.

I am also thankful to Principal, G.T.P College, Nandurbar, and Head P.G. Department of Chemistry for providing the practical support in allowing me use of their laboratories & facilities.
I am gratefully acknowledge to Shri.G.H.Raisoni Doctoral Fellowship awarded by North Maharashtra University, Jalgaon for Financial Support.

Thanks are also due to the Director, Sophisticated Instrumentation Center for Advanced Research and Technology (SICART), Vallabh Vidyanagar (Guj.), IIT, Mumbai, UDCT NMU Jalgaon for carrying XRD, SEM, FTIR analysis and IIT Kharagpur (Madras) for VSM analysis.

I also wish my sincere thanks to my senior laboratory colleagues Dr.G.H.Sonawane, Dr.Kamlesh Joshi, Dr. Bharat N. Patil and my fellow colleagues Dr. Yogesh Marathe, Arup Goswami, Sunil Marathe, Subhash Khairnar, Vilas Mahire and Swapnil Padavi for devoting their time for discussing the certain practical problems related to my research work.

I would like to special thanks to respected Madam Mrs.Priti Shrivastava for their hospitality during the research work.

I would like to thank my wife Mrs. Dipeeka for her continuing support and tolerance for the duration of my Ph.D studies, for being incredibly understanding, moral support, patience through tenure of work. Thanks for her editing assistance.

I am also thankful to my elder brother Shri. Pavbha S. Shirsath for their constant inspiration who made me reach and showed tremendous patience and extended all their co-operation during the course of work. I am also thankful to my friend Suresh for their co-operation.

Finally I must express my deep sense of gratitude to my parents and family members for their encouragement and support throughout the work.
