ACKNOWLEDGEMENT

I express my sincere, heartfelt gratitude to Dr. K. Balakrishnan, Assistant Professor, Department of Biotechnology, Bharathidasan University, Tiruchirappalli-24, for giving me a chance to work in his laboratory and for providing all the needed facilities and for his encouragement at all stages of work.

I take pleasure to sincerely thank Dr. T. Thirunalasundari, Professor and Head, Department of Biotechnology for his support to complete my research work. I wish to express my thanks to other staff members Dr. A. Ganapathi, Professor, Dr. A.S. Rao, Professor and Dr. S. Sivaramakrishnan, Assistant Professor for their valuable suggestions during this course of study.

I like to place my deepest sense of gratefulness and indebtedness to Dr. Chang Jin Kim, Principal Investigator, Biological Resource Center, Korea Research Institute of Bioscience and Biotechnology, Daejeon, South Korea who allowed me to do part of my research work in his laboratory and for his benevolent guidance and creative suggestions during the research.

I express my grateful thanks to Dr. Jae Chan Lee, A Post Doctoral Research fellow, Korea Research Institute of Bioscience and Biotechnology, Daejeon, South Korea and Mr. Dong Jin Park, South Korea and other staff members for their moral support and good wishes for my research.

I express my greatfulness to Dr. M. Krishnan, Professor and Head, Department of Environmental Biotechnology and Dr. K. Prem Kumar, Assistant Professor, Department of Bio-Medical Sciences, for their consistent help rendered during my period of study.
My sincere thanks to Dr. Woung Youn Chung, MD., Dr. Ryo Hyung Rang, MD, Clinical Research Fellow, Yonsei University, South Korea, Dr. P. Kannan, Research Scientist, Germany for their constant help rendered during my period of study.

Words are not sufficient to express my sincere thanks to Dr. R. Karthik Raja, Mr. T. Manikandan, Dr. K. Padmanaban, Dr. C. Rathika, Mr. M. Dhivakar, Mr. V. Murali, Mr. R. Kamaraj and Miss. S. Chitra and for their valuable help during this period. More personally, I would like to thank my friends Mr. P.N. Ramesh, Mr. SP. Manivannan and S.G. Prabhakaran, for their concern during my research work.

My immense and heartfelt thanks to my beloved parents Mr. P. Shanmugam, and Mrs. P. Lakshmi, wife S. Sathya, sisters Mrs. B. Revathi and S. Umamakeswari and brother in law, Mr. R. Ayyappan for their encouragement and patience during the period of study. My heartfelt thanks to my fellow research scholars in the Department of Biotechnology, Bharathidasan University for their insights and suggestions.

I acknowledge the financial assistance provided to me by 21C Frontier Program of Microbial Genomics and Applications from the Korean Ministry of Education, Science & Technology (MEST), and by a grant from KRIIBB Research Initiative Program, Korea.

S. PARTHASARATHI
