DECLARATION BY THE CANDIDATE

I hereby declare that the thesis entitled "Laboratory diagnosis of amoebiasis by polymerase chain reaction and study of genetic variations in Entamoeba isolates from Puducherry, India" submitted to the Pondicherry University for the fulfillment of the requirement for the award of degree of Doctor of Philosophy in Medical Microbiology, is a bonafide record of the original research work carried out by me at the Department of Microbiology, Jawaharlal Institute of Postgraduate Medical Education and Research (JIPMER), Puducherry, under the supervision and guidance of Dr. Subhash Chandra Parija, MD, PhD, Director-Professor and Head, Department of Microbiology, JIPMER, Puducherry, India.

This study represents the independent work conducted by me and has not previously formed the basis for award of any degree, diploma, associate ship, fellowship or other similar title.

ACKNOWLEDGEMENT

I take this opportunity to express my sincere gratefulness and respect to my guide and mentor, Dr. Subhash Chandra Parija, for his passion, unfathomable concern and able guidance. His unfailing endeavor has inspired me to realize the quintessence of diagnostic field.

I am grateful to the present and past Director, Medical Superintendent and Dean JIPMER, for providing institutional infrastructure and permitting me to carryout this study.

I sincerely acknowledge my doctoral committee advisors Professor S. Jayachandran, Dean, School of Life Sciences and Biotechnology, Pondicherry University and Dr. R.M. Pillai, Professor and Head, Department of Microbiology, Rajiv Gandhi College of Veterinary and Animal sciences, Puducherry for their critical evaluation of the proceedings, precious suggestions and guidance during every stage of this study.

I express my sincere thanks to Dr. Badrinath, Director Professor and Project Coordinator, for his considerate and priceless help during the initial stages of my work. I express my heartfelt thanks to Dr. B.N. Harish, Professor of Microbiology for his valuable suggestions, and Dr. S. Sujatha, Professor of Microbiology, JIPMER for the academic inputs and kindness she showed me all through this study.

I am highly thankful to all the former faculty members of the Department of Microbiology, JIPMER.

I wish to convey my earnest gratitude to Dr. C. Graham Clark, Department of Infectious and Tropical Diseases, London School of Hygiene and Tropical Medicine, London, England for his generosity to provide me with the lyophilized DNA of reference strains of Entamoeba. Many valuable tips rendered by him gladly in the form of much desired discussions and suggestions at various stages of this study were precious.

I was privileged to have a reliable and unsolicited companionship in every aspect during my Ph.D journey in my colleagues: Vaidyanathan, Chandrashekhar, Smita, Gireesh, Godfred, Parveen and Amudhan for which I am indebted.
I would like to express special words of thanks to the past and present residents of our department Dr. Sanjay, Prabhakar, Rakhi, Annie, Sheela, Judy, Kokila, Venkatesh, Surya, Jagadish, Rahul, Atul, Jaya, Murali, Manikandan, Siva Sangeetha, Uma, Chaya, Shrinivas, Noyal, Manisa, Apurba and Sadia for their solicitous backing and friendship.

I owe my earnest thanks to my senior colleagues: Dr. Vittal, Priyadarshi, Swarna and Madhulika for their help and incessant support in their own way.

I would like to thank Dr. Kirubashankar, Dr. Gaurishankar and Dr. Ajay, Dept. of P&SM, for their considerate support in statistical analysis of the data.

I am thankful to Dr. Nandakumar and Nandish, and PhD scholars; Selvaraj, Sathyapriya, Vinayagamoorthy and Nevedita and, Department of Biochemistry, JIPMER and Naveen and Rajan, Dept. of Pharmacology, JIPMER for their wholehearted help all through this study.

I am also thankful to the residents of Dept. of Radio Diagnosis, Dept. of Medicine, and Dept. of Surgery, JIPMER for their unreserved cooperation during the study.

My sincere acknowledgments to Mr. Palani, Storekeeper, for his immense cooperation and Mr. Natarajan, Stenographer and all the past and present technical staff of the Department of Microbiology for their priceless assist and support all through my work period.

I am beholden to all my friends and colleagues in JIPMER for their love, support and inspiration they have showed me all through that made my stay in JIPMER a memorable and valuable experience in my life.

I am engrossed to express my heartfelt thanks to Janardhan da, Ajit da, Kanjilal da, Prashant da, Samanto da, Pratima di, Simanchal da, Lata di, Sukanya, Sarthak, and Babi from Aurobindo Ashram for their unconditional love, passion and support which was spontaneous and drove me through these years in JIPMER, for which I am everlastingly grateful.

I take this opportunity to express my profound gratefulness and admiration for all my teachers in school and college over these decades. I render my special thanks to Dr. Kulkarni, Mrs. Dev, Mrs. Katoke, Dr.
Dagninawala and Dr. Wadher whose teachings provoked interest in Microbiology during my under-graduation and post-graduation.

I express my earnest thanks to my very special friends in school and college Manish, Hema, Geetika, Anjali, Namita, Alok, Swapna, Mahendra, Krishnakant, Abhijeet, Chandrani, Anupama, Sunil, Jaya, Rajeev and many more who had enthused and motivated in one way or the other, for which I am deeply indebted perpetually.

I owe my genuine homage to my loving younger brother Kunal Khairnar, who is no more to witness this moment.

I profoundly express my deepest gratitude & appreciation to my family members cousin, uncle, aunt and grandparents for all their love affection, and well wishes over these years.

Last but not least, I will always be indebted to my parents throughout my life, for their immeasurable love, forfeit, inspiration & serenity over these decades to make me what I am today.

Krishna Khairnar
