4.3 Mean and SD of Adjustment and its Dimensions Scores of Pre-University Students According to Gender (N=500)

4.4 Mean and SD of Emotional Intelligence and its Dimensions Scores of Pre-University Students According to Gender (N=500)

4.5 Mean and SD of Cognitive Styles Scores of Pre-University College Students According to Gender (N=500)

4.6 Mean and SD of Academic Achievement Scores of Pre-University College Students According to Subjects (N=500)

4.7 Mean and SD of Anxiety Proneness Scores of Pre-University College Students According to Subjects (N=500)

4.8 Mean and SD of Adjustment and its Dimensions Scores of Pre-University Students According to Subjects (N=500)

4.9 Mean and SD of Emotional Intelligence and Its Dimensions Scores of Pre-University Students According to Subjects (N=500)

4.10 Mean and SD of Cognitive Styles Scores of Pre-University Students According to Subjects (N=500)

4.11 Mean and SD of Academic Achievement Scores of Pre-University College Students According to Mediums of Instruction (N=500)

4.12 Mean and SD of Anxiety Proneness Scores of Pre-University College Students According to Mediums of Instruction (N=500)

4.13 Mean and SD of Adjustment and its Dimensions Scores of Pre-University Students According to Mediums of Instruction (N=500)

4.14 Mean and SD of Emotional Intelligence and its Dimensions Scores of Pre-University Students According to Medium of Instruction (N=500)

4.15 Mean and SD of Cognitive Styles Scores of Pre-University College Students According to Medium of Instruction (N=500)
4.16 Mean and SD of Academic Achievement Scores of Pre-University College Students According to Types of Management (N=500)

4.17 Mean and SD of Anxiety Proneness Scores of Pre-University College Students According to Types of Management (N=500)

4.18 Mean and SD of Adjustment and its Dimensions Scores of Pre-University Students According to Types of Management (N=500)

4.19 Mean and SD of Emotional Intelligence and its Dimensions Scores of Pre-University Students According to Types of Management (N=500)

4.20 Mean and SD of Cognitive Styles Scores of Pre-University Students According to Types of Management (N=500)

4.21 Mean and SD of Academic Achievement Scores of Pre-University College Students According to Location (N=500)

4.22 Mean and SD of Anxiety Proneness Scores of Pre-University College Students According to Location (N=500)

4.23 Mean and SD of Adjustment and its Dimensions Scores of Pre-University Students According to Location (N=500)

4.24 Mean and SD of Emotional Intelligence and its Dimensions Scores of Pre-University Students According to Location (N=500)

4.25 Mean and SD of Cognitive Styles Scores of Pre-University Students According to Location (N=500)

4.26 Results of t-Test Difference between Male and Female Students of Pre-University Colleges with Respect to Their Academic Achievement Scores (N=500)

4.27 Results of t-Test Difference between Male and Female Students of Pre-University Colleges with Respect to Anxiety Proneness Scores (N=500)

4.28 Results of t-Test Difference between Male and Female Students of Pre-University Colleges with Respect to Total Adjustment and its Dimensions Scores (N=500)
4.29 Results of t-Test Difference between Male and Female Students of Pre-University Colleges with Respect to Emotional Intelligence and its Dimensions Scores (N=500)

4.30 Results of t-Test Difference between Male and Female Students of Pre-University Colleges with Respect to Cognitive Styles Scores (N=500)

4.31 Results of ANOVA-Test Difference between Arts, Science and Commerce Students of Pre-University Colleges with Respect to Their Academic Achievement Scores (N=500)

4.32 Pair Wise Comparison of Arts, Science and Commerce Students of Pre-University Colleges with Respect to their Academic Achievement Scores by Scheffe's Multiple Post Hoc Procedures (N=500)

4.33 Results of ANOVA-test Difference between Arts, Science and Commerce Students of Pre-University Colleges with Respect to Anxiety Proneness Scores (N=500)

4.34 Pair wise comparison of Arts, Science and Commerce Students of Pre-University Colleges with Respect to Anxiety Proneness Scores by Scheffe's Multiple Post Hoc Procedures (N=500)

4.35 Results of ANOVA-test Difference between Arts, Science and Commerce Students of Pre-University Colleges with Respect to Total Adjustment and its Dimensions Scores (N=500)

4.36 Pair-wise Comparison of Arts, Science and Commerce Students of Pre-University Colleges with Respect to Total Adjustment and its Dimensions Scores by Scheffe's Multiple Post Hoc Procedures (N=500)

4.37 Results of ANOVA-test Difference between Arts, Science and Commerce Students of Pre-University Colleges with Respect to Emotional Intelligence and its Dimensions Scores (N=500)

4.38 Pair-wise Comparison of Arts, Science and Commerce Students of Pre-University Colleges with Respect to Emotional Intelligence and its Dimensions Scores by Scheffe's Multiple Post hoc Procedures (N=500)
4.39 Results of ANOVA-test Difference between Arts, Science and Commerce Students of Pre-University Colleges with Respect to Cognitive Styles Scores (N=500)

4.40 Pair-wise comparison of Arts, Science and Commerce Students of Pre-University Colleges with Respect to Cognitive Styles Scores by Scheffe’s Multiple Post Hoc Procedures (N=500)

4.41 Results of t-test difference between Kannada and English Medium Students of Pre-University Colleges with Respect to their Academic Achievement Scores (N=500)

4.42 Results of t-Test difference between Kannada and English Medium Students of Pre-University Colleges with Respect to their Anxiety Proneness Scores (N=500)

4.43 Results of t-test between difference between Kannada and English medium students of Pre-University Colleges with respect to total adjustment and its dimensions scores (N=500)

4.44 Results of t-Test difference between Kannada and English Medium Students of Pre-University Colleges with Respect to Emotional Intelligence and its Dimensions Scores (N=500)

4.45 Results of t-Test Difference between Kannada and English Medium Students of Pre-University Colleges with Respect to Cognitive Styles Scores (N=500)

4.46 Results of ANOVA-test Difference between Private, BBMP and Government Pre-University College Students with Respect to their Academic Achievement Scores (N=500)

4.47 Pair-wise Comparison of Private, BBMP and Government Pre-University College Students with Respect to Their Academic Achievement Scores by Scheffe’s Multiple Post Hoc Procedures (N=500)

4.48 Results of ANOVA-test Difference Between Private, BBMP and Government Pre-University College Students with Respect to Anxiety Proneness Scores (N=500)

4.49 Results of ANOVA-test Difference between Private, BBMP and Government Pre-University College Students with Respect to Total Adjustment and its Dimensions Scores (N=500)
4.50 Results of ANOVA-test Difference between Private, BBMP and Government Pre-University College Students with Respect to Emotional Intelligence and its Dimensions Scores (N=500)

4.51 Results of ANOVA-test Difference between Private, BBMP and Government Pre-University College Students with Respect to Cognitive Styles Scores (N=500)

4.52 Results of t-test Difference between Rural and Urban Pre-University College Students with Respect to their Academic Achievement Scores (N=500)

4.53 Results of t-test Difference Between Rural and Urban Pre-University College Students with Respect to their Anxiety Proneness Scores (N=500)

4.54 Results of t-test Difference between Rural and Urban Pre-University College Students with Respect to Total Adjustment and its Dimensions Scores (N=500)

4.55 Results of t-Test Difference between Rural and Urban Pre-University College Students with Respect to Emotional Intelligence and its Dimensions Scores (N=500)

4.56 Results of t-Test Difference between Rural and Urban Pre-University College Students with Respect to Cognitive Styles Scores (N=500)

4.57 Results of Correlation Coefficient Between Academic Achievement and Anxiety Proneness Scores of Students of Pre-University Colleges (N=500)

4.58 Results of Correlation Coefficient between Academic Achievement with Total Adjustment and its Dimensions Scores of Students of Pre-University Colleges (N=500)

4.59 Results of Correlation Coefficient between Academic Achievement with Emotional Intelligence and its Dimensions Scores of Students of Pre-University Colleges (N=500)

4.60 Results of Correlation Coefficient between Academic Achievement and Cognitive Style Scores of Students of Pre-University Colleges (N=500)

4.61 Results of Correlation Coefficient Between Anxiety Proneness with Total Adjustment and its Dimensions Scores of Students of Pre-University Colleges (N=500)
4.62 Results of Correlation Coefficient between Anxiety Proneness with Emotional Intelligence and its Dimensions Scores of Students of Pre-University College (N=500)

4.63 Results of Correlation Coefficient between Anxiety Proneness and Cognitive Style Scores of Students of Pre-University Colleges (N=500)

4.64 Results of Correlation Coefficient between Cognitive Styles with Total Adjustment and its Dimensions Scores of Students of Pre-University Colleges (N=500)

4.65 Results of Correlation Coefficient between Cognitive Styles with Emotional Intelligence and its Dimensions Scores of Students of Pre-University Colleges (N=500)

4.66 Results of Correlation Coefficient between Total Adjustment and its Dimensions with Emotional Intelligence and its Dimensions Scores of Students of Pre-University Colleges (N=500)

4.67 Multiple Linear Regression Analysis of Academic Achievement with Anxiety Proneness, Adjustment, Emotional Intelligence and Cognitive Styles of Students of Pre-University Colleges (N=500)

4.68 Relative Contribution of Anxiety Proneness, Adjustment, Emotional Intelligence and Cognitive Styles on Academic Achievement of Students of Pre-University Colleges (N=500)

4.69 Multiple Linear Regression Analysis of Academic Achievement with Home Adjustment, Health Adjustment, Social Adjustment, Emotional Adjustment and Educational Adjustment of Students of Pre-University Colleges (N=500)

4.70 Relative Contribution of Home Adjustment, Health Adjustment, Social Adjustment, Emotional Adjustment and Educational Adjustment on Academic Achievement of Students of Pre-University Colleges (N=500)

4.71 Multiple Linear Regression Analysis of Academic Achievement with Self Awareness, Self Regulation, Motivation, Empathy and Social Skills of Students of Pre-University Colleges (N=500)
4.72 Relative Contribution of Self-Awareness, Self-Regulation, Motivation, Empathy and Social Skills on Academic Achievement of Students of Pre-University Colleges (N=500)

4.73 Path Analysis of Anxiety Proneness, Adjustment, Emotional Intelligence and Cognitive Styles on Academic Achievement of Students of Pre-University Colleges (N=500)

4.74 Path Analysis of Home Adjustment, Health Adjustment, Social Adjustment, Emotional Adjustment and Educational Adjustment on Academic Achievement of Students of Pre-University Colleges (N=500)

4.75 Path Analysis of Self Awareness, Self Regulation, Motivation, Empathy and Social Skills on Academic Achievement of Students of Pre-University Colleges (N=500)

5.1 Showing Break up of Sample in Terms of Moderator Variables (N=500)
