Abstract xi

CHAPTER TITLE PAGE

1. INTRODUCTION 1
1.1. Meaning and Definition of Adolescence 2
1.2. Physical Growth during Adolescence 4
1.2.1. Pubertal Growth spurt 4
1.2.1.1. Primary Sex Characteristics 5
1.2.1.2. Secondary Sex Characteristics 6
1.2.2. Effect of Growth Spurt 6
1.2.3. Sexual Behaviour 7
1.3. Cognitive Development 8
1.4. Understanding of Self in Adolescence 10
1.5. Emotionality During Adolescence 12
1.6. Social Changes During Adolescence 14
1.7. Relationships in Adolescence 15
1.7.1. With Parents 15
1.7.2. With Siblings 18
1.7.3. With Grandparents 18
1.8. School and Attainments in Adolescence 19
1.9. Changes in Morality During Adolescence 20
1.10. Risk Taking and Dangerous Behaviour in Adolescence 23
1.10.1. Integrated Theories of Youthful Risk Taking 24
1.10.2. Various Conceptualisations of Risk 25
1.10.2.1. Biomedical Concepts of Risk 25
1.10.2.2. Socio Developmental Concepts of Risk 25
1.10.2.3. Cognitive Developmental Concepts of Risk 26
1.10.2.4. Social Learning Theory Concepts of Risk 26
1.11. What Should be Done About Risk Taking? 27
1.12. Why Mental Health Promotion/Prevention is Important? 30
1.12.1. Nature of Adolescence 30
1.12.2. Prevalence of Mental Health Problems in Adolescents Across the World and India 30
1.12.3. Economic and Social Burden on Country’s Limited Resources are Enormous 31
1.12.4. Health Promotion is Important Strategy of Public Health 32
1.12.5. Evidence-based Prevention 33

3. TOOL AND INTERVENTION PACKAGE DEVELOPMENT

3.1. Preamble

3.2. Review of Existing Inventories and Scales

3.2.1. Social Competence Scale by Sharma, Shukla and Shukla (1992)

3.2.2. Emotional Competencies Scale by Sharma and Bharadwaj (1995)

3.2.3. Life Skills Education Training Package by Murthy and Rao (2005)

3.2.4. Evaluation of Effectiveness of Life Skills Education Programs in Various Ways

3.3. Item Generation

3.3.1. Interaction With Teachers

3.3.2. Interaction with Adolescents and Parents

3.3.3. Analysis of Definitions by WHO (1993)

3.3.3.1. Problem Solving

3.3.3.2. Decision Making

3.3.3.3. Critical Thinking

3.3.3.4. Creative Thinking

3.3.3.5. Empathy

3.3.3.6. Self Awareness

3.3.3.7. Coping with Emotions

3.3.3.8. Coping with Stress

3.3.3.9. Interpersonal Relations Skill

3.3.3.10. Effective Communication

3.4. First Version of the Scale

3.5. Comments From Experts

3.5.1. Suggestions by Dr. Uma Hirisave

3.5.2. Suggestions by Dr. R. Parthasarathy

3.5.3. Suggestions by Dr. K. V. Kishore

3.6. Pilot Testing

3.6.1. Difficulties in Administration

3.6.2. Analyses

3.6.3. Establishing Reliability

3.6.4. Establishing Validity

3.7. Final Version of the Scale

3.7.1. Unique Characteristics of the Scale

3.7.2. Limitations

3.8. Development of Intervention Package

3.8.1. Review of Existing Intervention Packages

3.8.2. Interaction with Expert 162-
3.8.3. Designing Intervention Package 163-
3.8.4. Teaching Methods Employed 168-
3.8.4.1. Brain Storming 168-
3.8.4.2. Group Discussion 169-
3.9. Contents of Intervention Package 171-
3.9.1. Administration 171-
3.9.2. Positive Aspects of the Programme 172-
3.9.3. Drawbacks of the Programme 173-
3.9.4. Difficulties in Administration 173-

4. METHODOLOGY 175-
4.1. Need For the Study 175-
4.2. Research Questions 177-
4.3. Hypotheses 177-
4.3.1. Control Group 178-
4.3.1.1. Comparison within Control Group From Pre Test to Post Test Phase 178-
4.3.1.2. Comparison within Control Group From Post Test to Post Post Test Phase 179-
4.3.1.3. Comparison within Control Group From Pre Test to Post Post Test Phase 181-
4.3.2. Experimental Group 182-
4.3.2.1. Comparison within Experimental Group From Pre Test to Post Test Phase 182-
4.3.2.2. Comparison within Experimental Group From Post Test to Post Post Test Phase 183-
4.3.2.3. Comparison within Experimental Group From Pre Test to Post Post Test Phase 184-
4.3.3. Comparison Between Experimental and Control Group 186-
4.3.3.1. Pre Test Phase 186-
4.3.3.2. Post Test Phase 187-
4.3.3.3. Post Post Test Phase 188-
4.3.4. Influence of Demographic Factors on Psychosocial Competence of Adolescents 189-

4.4. Research Design 191-
4.5. Data Collection 193-
4.6. Sample 194-
4.6.1. Inclusion Criteria 194-
4.6.2. Exclusion Criteria 194-
4.6.3. Experimental Group 195-
4.6.4. Control Group 195-
4.7. Tools Used 196-
4.7.1. Psychosocial Competence Scale by Ajitha Dindigal and Vijaylaxmi A.Aminabhavi 196-
4.8. Statistical Analyses of Data 197-
5. RESULTS AND INTERPRETATIONS 201

5.1. Comparison of Psychosocial Competence of Control Group Adolescents from Pre Test to Post Test Phase 201

5.1.1. Psychosocial Competence of Control Group Adolescents from Pre Test to Post Test Phase 201

5.1.2. Significance of Difference within Control Group From Pre Test to Post Test for All Ten Life Skills and Overall Psychosocial Competence 204-

5.2. Comparison of Psychosocial Competence of Control Group Adolescents from Post Test to Post Post Test Phase 205-

5.2.1. Psychosocial Competence of Control Group Adolescents from Post Test to Post Post Test Phase 205-

5.2.2. Significance of Difference within Control Group From Post Test to Post Post Test for All Ten Life Skills and Overall Psychosocial Competence 208-

5.3. Comparison of Psychosocial Competence of Control Group Adolescents from Pre Test to Post Post Test Phase 209-

5.3.1. Psychosocial Competence of Control Group Adolescents from Pre Test to Post Post Test Phase 209-

5.3.2. Significance of Difference within Control Group From Pre Test to Post Post Test for All Ten Life Skills and Overall Psychosocial Competence 212-

5.4. Interpretation 213-

5.4.1. Comparison within Control Group from Pre Test to Post Test Phase 213-

5.4.2. Comparison within Control Group from Post Test to Post Post Test Phase 214-

5.4.3. Comparison within Control Group from Pre Test to Post Post Test Phase 215-

5.5. Highlights 217

6. RESULTS AND INTERPRETATIONS (CONTINUED) 219

6.1. Comparison of Psychosocial Competence of Experimental Group Adolescents from Pre Test to Post Test Phase 219

6.1.1. Psychosocial Competence of Experimental Group Adolescents from Pre Test to Post Test Phase 219
6.1.2. Significance of Difference Within Experimental Group From Pre Test to Post Test For all Ten Life Skills As Well As Overall Psychosocial Competence

6.2. Comparison of Psychosocial Competence of Experimental Group Adolescents from Post Test to Post Post Test Phase

6.2.1. Psychosocial Competence of Experimental Group Adolescents from Post Test to Post Post Test Phase

6.2.2. Significance of Difference Within Experimental Group From Post Test to Post Post Test For all Ten Life Skills As Well As Overall Psychosocial Competence

6.3. Comparison of Psychosocial Competence of Experimental Group Adolescents From Pre Test to Post Post Test Phase

6.3.1. Psychosocial Competence of Experimental Group Adolescents from Pre Test to Post Post Test Phase

6.3.2. Significance of Difference Within Experimental Group From Pre Test to Post Post Test For all Ten Life Skills As Well As Overall Psychosocial Competence

6.4. Interpretation

6.4.1. Comparison within Control Group From Pre Test to Post Test Phase

6.4.2. Comparison within Control Group From Post Test to Post Post Test Phase

6.4.3. Comparison within Control Group From Pre Test to Post Test Phase

6.5. Highlights

7. RESULTS AND INTERPRETATIONS (CONTINUED)

7.1. Comparison of Psychosocial Competence of Experimental and Control Group Adolescents at Pre Test Phase

7.1.1. Psychosocial Competence of Experimental and Control Group Adolescents at Pre Test Phase

7.1.2. Significance of Difference Between Experimental Group and Control Group Adolescents At Pre Test Phase In All Ten Life Skills and Overall Psychosocial Competence

7.2. Comparison of Psychosocial Competence of Experimental and Control Group Adolescents at Post Test Phase

7.2.1. Psychosocial Competence of Experimental and Control Group Adolescents at Post Test Phase

7.2.2. Significance of Difference Between Experimental
Group and Control Group Adolescents At Post Test Phase In All Ten Life Skills and Overall Psychosocial Competence.

7.3. Comparison of Psychosocial Competence of Experimental and Control Group Adolescents at Post Post Test Phase

7.3.1. Psychosocial Competence of Experimental and Control Group Adolescents at Post Post Test Phase

7.3.2. Significance of Difference Between Experimental Group and Control Group Adolescents At Post Post Test Phase In All Ten Life Skills and Overall Psychosocial Competence

7.4. Interpretation

7.4.1. Comparison Between Experimental and Control Group Adolescents at Pre Test Phase

7.4.2. Comparison Between Experimental and Control Group Adolescents at Post Test Phase

7.4.3. Comparison Between Experimental and Control Group Adolescents at Post Post Test Phase

7.5. Highlights

8. RESULTS AND INTERPRETATIONS (CONTINUED)

8.1. Factors Significantly Contributing to All Ten Life Skills and Overall Psychosocial Competence of Adolescents

8.1.1. Factors Significantly Contributing to Problem Solving Skill of Adolescents

8.1.2. Factors Significantly Contributing to Decision Making Skill of Adolescents

8.1.3. Factors Significantly Contributing to Critical Thinking Skill of Adolescents

8.1.4. Factors Significantly Contributing to Creative Thinking Skill of Adolescents

8.1.5. Factors Significantly Contributing to Empathy Skill of Adolescents

8.1.6. Factors Significantly Contributing to Self Awareness Skill of Adolescents

8.1.7. Factors Significantly Contributing to Coping with Emotions Skill of Adolescents

8.1.8. Factors Significantly Contributing to Coping with Stress Skill of Adolescents

8.1.9. Factors Significantly Contributing to Interpersonal Relations Skill of Adolescents

8.1.10. Factors Significantly Contributing to Effective Communication Skill of Adolescents
8.1.11. Factors Significantly Contributing to Overall Psychosocial Competence of Adolescents

8.2. Interpretation: Factors Contributing Significantly to All Ten Life Skills and Overall Psychosocial Competence of Adolescents

8.3. Highlights

9. SUMMARY AND CONCLUSIONS

9.1. Summary and Findings

9.1.1. Measures Used in the Study

9.1.2. Comparison within Control Group

9.1.2.1. Comparison within Control Group at Pre Test Phase

9.1.2.2. Comparison within Control Group at Post Test Phase

9.1.2.3. Comparison within Control Group at Post Post Test Phase

9.1.3. Comparison within Experimental Group

9.1.3.1. Comparison within Experimental Group at Pre Test Phase

9.1.3.2. Comparison within Experimental Group at Post Test Phase

9.1.3.3. Comparison within Experimental Group at Post Post Test Phase

9.1.4. Comparison Between Experimental and Control Group

9.1.4.1. Comparison Between Experimental and Control Group at Pre Test Phase

9.1.4.2. Comparison Between Experimental and Control Group at Post Test Phase

9.1.4.3. Comparison Between Experimental and Control Group at Post Post Test Phase

9.1.5. Demographic Factors Significantly Contributing to All Ten Life Skills and Overall Psychosocial Competence

9.2. Conclusions

9.3. Suggestions for Further Research

9.3.1. Variables

9.3.2. Instrument

9.3.3. Intervention

9.3.4. Target Group

9.4. Recommendations
