ACKNOWLEDGEMENTS

I am deeply indebted to Dr. K. Rajagopal, Professor of Mechanical Engineering, J.N.T University, Hyderabad under whose initiative, valuable guidance and constant encouragement, the work is carried out and brought to completion. His keen interest, logical thinking, tolerance in every shape, regular observation, kind co-operation, and constructive criticism helped to complete this dissertation.

I am extremely thankful to Dr. L.S.S. Reddy, Director, L.B. Reddy College of Engineering, Mylavaram, for his support and I would like to thank the Management of L.B. Reddy College of Engineering, Mylavaram, for providing financial assistance to purchase the computerized IC engine test rig.

I am thankful to Dr. P. Lova Raju, HOD, Department of Mechanical Engineering, for his useful suggestions and encouragement during the course of my research.

Words are inadequate to express my thanks to all my family members, especially to my wife Mrs. K. Jyothirmai, sons Charan, Chakresh and my Parents for their constant encouragement and help during this research work.

I would like to thank my friends G. Venkata Subbaiah and V. S. Hariharan for their timely suggestions.

I would like to thank all teaching and non-teaching staff of Mechanical Engineering Department of L.B. Reddy College of Engineering, Mylavarm, for their support.

I would like to thank all the persons those who are involved directly or indirectly to complete this thesis.

K. APPA RAO
