ACKNOWLEDGEMENTS

It would not have been possible to write this doctoral thesis without the help and support of the kind people around me, to only some of whom it is possible to give particular mention here. I wish to express my sincere appreciation to those who have contributed to this thesis and supported me in one way or the other during this amazing journey.

At this moment of accomplishment, first of all I pay homage to my Supervisor, Dr. S. K. Jadhav, Professor and Head, School of Studies in Biotechnology, Pt. Ravishankar Shukla University Raipur (C. G.). This work would not have been possible without his guidance, support and encouragement. Under his guidance I successfully overcame many difficulties and learned a lot. His unflinching courage and conviction will always inspire me, and I hope to continue to work with her noble thoughts.

I am very grateful to my Co-supervisor, Dr. K. L. Tiwari, Former Professor and Head, School of Studies in Biotechnology, Pt. Ravishankar Shukla University Raipur (C. G.) for his scientific advice and knowledge and many insightful discussions and suggestions. I consider it as a great opportunity to do my doctoral program under his guidance and to learn from his research expertise.

Some faculty members of the Department have been very kind enough to extend their help at various phases of this research, whenever I approached them, and I do hereby acknowledge all of them. I thank Dr. K. K. Sahu, Associate Professor, Dr. A. Quraishi and Dr. K. K. Shukla, Asst. Professor, School of Studies in Biotechnology, Pt. Ravishankar Shukla University Raipur (C.
