LIST OF FIGURES

Fig 4.1: Sector wise distribution --------------------------------------------- 74
Figure 4.2: Competitive Priority in different sector ------------------------ 76
Fig.4.2.1: Competitive Priority in Automobile sector ------------------------ 77
Fig.4.2.2: Competitive Priority in E&E sector ----------------------------- 77
Fig.4.2.3: Competitive Priority in M/C sector ----------------------------- 78
Fig.4.2.4: Competitive Priority in Process sector -------------------------- 78
Figure 4.3: Competitive strength in different sector ---------------------- 79
Figure 4.3.1: Competitive strength in Automobile sector ------------------ 80
Figure 4.3.2: Competitive strength in E&E sector ------------------------- 80
Figure 4.3.3: Competitive strength in M/C sector ------------------------- 81
Figure 4.3.4: Competitive strength in Process sector ---------------------- 81
Figure 4.4: Automation Implementation steps in different sector --------- 83
Figure 4.4.1: Automation Implementation steps in Automobile sector ------ 83
Figure 4.4.2: Automation Implementation steps in E&E sector -------------- 84
Figure 4.4.3: Automation Implementation steps in M/C sector -------------- 84
Figure 4.4.4: Automation Implementation steps in Process sector -------- 85
Figure 4.5: Advanced design & engineering technologies in different
Sector --------------------------------------------------------------------- 87
Figure 4.5.1: Advanced design & engineering technologies in
Automobile sector --------------------------------------------------------- 88
Figure 4.5.2: Advanced design & engineering technologies in E&E sector --- 88
Figure 4.5.3: Advanced design & engineering technologies in M/C sector --- 89
Figure 4.5.4: Advanced design & engineering technologies in Process sector -- 89

Figure 4.6: Advanced machining technologies in different sector ------------------ 90

Figure 4.6.1: Advanced machining technologies in Automobile sector --------- 91

Figure 4.6.2: Advanced machining technologies in E&E sector --------------------- 91

Figure 4.6.3: Advanced machining technologies in M/C sector ------------------- 92

Figure 4.6.4: Advanced machining technologies in Process sector ------------- 92

Figure 4.7: Advanced planning technologies in different sector -------------- 93

Figure 4.7.1: Advanced planning technologies in Automobile sector ------- 94

Figure 4.7.2: Advanced planning technologies in E&E sector ------------------ 94

Figure 4.7.3: Advanced planning technologies in M/C sector ------------------- 95

Figure 4.7.4: Advanced Planning technologies in Process sector ---------- 95

Figure 4.8: Advanced material handling in different sector ------------------ 96

Figure 4.8.1: Advanced material handling in Automobile sector ----------- 97

Figure 4.8.2: Advanced material handling in E&E sector ---------------------- 97

Figure 4.8.3: Advanced material handling in M/C sector --------------------- 98

Figure 4.8.4: Advanced material handling in Process sector ----------------- 98

Figure 4.9: Advanced management systems in different sector --------------- 99

Figure 4.9.1: Advanced management systems in Automobile sector ---------- 100

Figure 4.9.2: Advanced management systems in E&E sector ------------------- 100

Figure 4.9.3: Advanced management systems in M/C sector ------------------- 101

Figure 4.9.4: Advanced management systems in Process sector ------------- 101

Figure 4.10: Advanced process improvement systems in different sector ------- 102

Figure 4.10.1: Advanced process improvement systems in Automobile sector 103
Figure 4.10.2: Advanced process improvement systems in E&E sector --- 103
Figure 4.103: Advanced process improvement systems in M/C sector ------- 103
Figure 4.10.4: Advanced process improvement systems in Process sector ---- 104
Figure 4.11: Adoption of advanced management systems in different sector --- 105
Figure 4.11.1: Adoption of advanced management systems in Automobile sector --------------------------------------------- 105
Figure 4.11.2: Adoption of advanced management systems in E&E sector ---- 106
Figure 4.11.3: Adoption of advanced management systems in M/C sector ------ 106
Figure 4.11.4: Adoption of advanced management systems in Process sector - 106
Figure 4.12: Adoption of advanced manufacturing technologies in different sector ----------------------------------------------- 108
Figure 4.12.1: Adoption of advanced manufacturing technologies in Automobile sector --------------------------------------------- 108
Figure 4.12.2: Adoption of advanced manufacturing technologies in E&E sector ----------------------------------------------- 109
Figure 4.12.3: Adoption of advanced manufacturing technologies in M/C sector ----------------------------------------------- 109
Figure 4.12.4: Adoption of advanced manufacturing technologies in Process sector ----------------------------------------------- 110
Figure: 4.13: Advanced manufacturing technologies not implemented in different sector ----------------------------------------------- 112
Figure 4.13.1: Advanced manufacturing technologies not implemented in Automobile sector --------------------------------------------- 112
Figure 5.4.4: Summary for GT (ADT4) -------------------------------------------- 132
Figure 5.5.1: Summary for CNC (AMcT1) ------------------------------------------ 135
Figure 5.5.2: Summary for NC/DNC (AMcT2) ------------------------------------- 135
Figure 5.5.3: Summary for FMS (AMcT3) ------------------------------------------ 136
Figure 5.5.4: Summary for ROBOTICS (AMcT4) ----------------------------------- 136
Figure 5.6.1: Summary for MRP (APT1) ------------------------------------------ 139
Figure 5.6.2: Summary for MRPII (APT2) ---------------------------------------- 139
Figure 5.6.3: Summary for ERP (APT3) ----------------------------------------- 140
Figure 5.6.4: Summary for ABC (APT4) ---------------------------------------- 140
Figure 5.7.1: Summary for AMHS (AMH1) ---------------------------------------- 143
Figure 5.7.2: Summary for AGV (AMH2) ---------------------------------------- 143
Figure 5.7.3: Summary for AS/RS (AMH3) -------------------------------------- 144
Figure 5.8.1: Summary for TQM (AMS1) ---------------------------------------- 146
Figure 5.8.2: Summary for BPR (AMS2) ---------------------------------------- 147
Figure 5.8.3: Summary for SPC (AMS3) ---------------------------------------- 147
Figure 5.8.4: Summary for JIT (AMS4) -------------------------------------- 148
Figure 5.9.1: Summary for Benchmarking (APIS1) ----------------------------- 150
Figure 5.9.2: Summary for Kaizen (APIS2) -------------------------------------- 150
Figure 5.9.3: Summary for Management Training (APIS3) ---------------------- 151
Figure 5.9.4: Summary for Recycling (APIS4) ---------------------------------- 151
Figure 5.10.1: Summary for Increase cost effective use (AAMS1) ------------ 154
Figure 5.10.2: Summary for Develop team based commitment (AAMS2) ----- 154
Figure 5.10.3: Summary for Estimate artificial division (AAMS3) -------- 155
Figure 5.10.4: Summary for Improve quality of working (AAMS4)  

Figure 6.1(a): Existing process of cement manufacturing plant of XYZ Ltd  

Figure 6.1(b): Existing process of cement manufacturing plant of XYZ Ltd.  

Figure 6.2(a): Flow diagram of existing packing process of XYZ Ltd.  

Figure 6.2(b): Flow diagram of existing packing process of XYZ Ltd.  

Figure 6.3: Flow diagram of proposed crushing section of XYZ Ltd.  

Figure 6.4(a): Flow diagram of proposed packing process of XYZ Ltd.  

Figure 6.4(b): Flow diagram of proposed packing process of XYZ Ltd.
