Acknowledgments

Life has an aim and it can be achieved only when the Almighty is kind enough to bless one with a perfect "Guru", conducive atmosphere and inspiration from near and dear ones. I am obliged to have Prof. Farooq Ahmad as my supervisor. His meticulous guidance, sagacious advises, constructive criticisms through appraisal and vast knowledge of the subject enabled me to arrive at the present stage.

The completion of this research is not the end of entire ordeal, but for me it is an opening of a new window to an endless exploration of the related ideas. My efforts would not have been fruitful if the people around me would not have encouraged all the time.

This research work thus would have not been completed without the benevolent co-operation of a number of people. I am indeed indebted to my supervisor Prof. Farooq Ahmad who guided me at each step of my research work. He has been an unfailing source of inspiration. In-spite of his heavy academic commitments and administrative responsibilities, he gladly found time to check the formulations arrived at in this thesis.

I am extremely thankful to my Departmental Professors, I wish to thank all the staff and research scholars of the department of Physics, Kashmir University for their help and cooperation extended to me.
A very special thanks to my parents, my brother Iqbal Ahmad Mir, my sisters and little angels of our family Ainu and Mubarik who have encouraged me to carry on this challenging task. Their untiring assistance, cooperation and love have been a source of strength and a belief in my self.

I would like to express my deep gratitude and thanks to the head of the Department of Physics worthy Prof. Javed Ahmad Sheikh for his kind cooperation. I am thankful to Ajaz Ahmad Dar Assistant Professor Islamia Degree College, Mr Gowhar and Dr Abdul Wahid for their help and support in formatting my thesis. Dr Tabasum Mehraj, Dr Rabia Rasool, and all the staff members of Degree college baramulla deserve my special thanks for their encouraging suggestions.

Finally and most importantly let me express my love and affection for my daughter Rubayata Umeed whom i owe the most.

Ms Hameeda
Ph.D Research scholar
