DESCRIPTION OF PLATES AND FIGURES

Plate I
1. A general view of the megalithic site with burrows at Palakuzhy.

2. A burrow with multiple chambers. In this there are five chambers.

Plate II
1 & 2 A view of the trapezium shaped chambers in a burrow.

Plate III
1. An elevational view of the burrow with pillared platform.

2. A close up view of the pillars formed by rubbles placed one upon the other.

Plate IV
1. A horizontal view of the pillared platform in a burrow.

2. A close up view of the interior of the pillared platform.

Plate V
1. A view of the burrow with multiple chambers from the back side.

2. A view of another burrow with three chambers arranged in a row - from one end.
Plate VI

1. A view of the burrow with three chambers arranged in a row - from a different angle.

2. A dolmenoid cist with a porthole at Thompadam - A view from a certain height

Plate VII

1. A view of another dolmenoid cist from a distance.

2. An oblong cist chamber at Thonipadom. The orthostats placed lengthwise facing each other are elevationally tapering towards inside.

Plate VIII

1. A view of the cist chamber from a different angle.

2. A general view of the site at Thonipadom. One of the cists has a double ring of stone circle.

Plate IX

1. A frontal view of the square porthole on one of slabs of the dolmenoid cist at Thonipadom.

2. A view from the reverse side of the slab with square porthole.
Plate X

1. Another square porthole in one of the slabs of dolmenoid cists at Thonipadom. Here the square porthole is slightly curved at the top.

2. A view of the stone circle with laterite bounding stones. The cist chambers in this are made of granite orthostats.

Plate XI

1. A general view of the site at Kottukulam in Alamallur village with many stone circles.

2. A stone circle with tall laterite bounding stones planted in slightly inclined position.

Plate XII

1. A view of an intact stone circle at Kattukulam. This gives an idea about the mode of construction of the circles.

2. Another stone circle with tall clinostatic laterite bounding stones.

Plate XIII

1. A view of one of the bounding stones in a circle with a completed hole in the site at Kattukulam.

2. A view of two incomplete holes one one of the bounding stones in a circle at Kattukulam.
Plate XIV

1. A single Kudaikal.

2. A multiple Kudaikal.

Plate XV

1 & 2 A view from different angles of a Topikal noticed in Tazhekulappuram, in Malappuram district.

Plate XVI

1. A topikal located by the side of a road at Koduvayur.

2. A menhir of laterite stone at Tirunnavaya.

Plate XVII

1. A tall well dressed menhir of laterite at Tirunnavaya. The figure of ladder shown on the menhir is an election symbol recently drawn on it.

2. A rock-cut cave with an open court, a flight of steps and a single entrance.

Plate XVIII

1. A rock-cut cave with a flight of steps, entrance and a circular top opening.

2. A rock-cut cave with a flight of steps and double entrances.
Plate XIX

1. A rock-cut cave with single recessed entrance and circular top opening.

Plate XX-A

An excavated Kudaikal at Chataparamba. It contained burial urn, and other grave goods such as vessels, iron implements and beads.

Plate XX-B

A view of the menhir site at Periyakanal - before excavation.

Plate XXI

1. A fragment of a shallow bowl of coarse red ware.

   The bowl should have been photographed in upside down position.

2. A fragment of a vessel with some applique projections on the body.

3. A fragment of a vessel with a carinated body.

Plate XXII

1. A fragment of a vessel with pointed leg and a channel spout.

2. A fragment of a compartmented vessel with chain design and a bell with a gong attached to it
3. A potshred with radiating incised lines.

4. A potshred with horizontal incised lines.

5. A potshred with incised vertical lines.

Plate XXIII

1. A potshred with slanting lines in between two horizontal parallel lines.

2. A potshred with notches in between a hatch. They look like leaves.

3. A fragment of a vessel with engraved lines and overlying folds.

Plate XXIV

1. A fragment of the shoulder part of a vessel with circular applique design below the shoulder. The finger prints are clearly visible on the circular applique.

2. A fragment of a vessel with applique chain design on the shoulder part.

3. A rim portion of a shallow bowl with russet coating.

Plate XXV

1. Internal view of a bowl with white painting in wavy line design under russet coating.
2. External view of the bowl with white painting in wavy line design under russet coating.

Plate XXVI

Profile view of the bowl with white painting in wavy line design under russet coating

Plate XXVII

1. Frontal view of a tiny terracotta figurine.

2. A view of the reverse side of the tiny terracotta figurine.

Plate XXVIII

1. Profile view of a terracotta human head.

2. Frontal view of the terracotta human head.

Plate XXIX

1. Back view of the terracotta human head.

2. A view of the terracotta human head from the top.

Plate XXX

1. Frontal view of the hollow terracotta human head.

2. Profile view of the hollow terracotta human head.
Plate XXXI

1. A fragment of a human face with 'U' shaped chin and moustache.

2. A fragment of a human face with elongated nose. It is of red ware.

Plate XXXII

1. A hollow elbow portion of a hand gently bent at the joint.

2. A fragment of a hand holding a lotus bud.

3. A fragment of a hand with closed fingers forming a socket for holding some object.

Plate XXXIII

1. A fragment of the wrist portion with closed fingers, wearing bangles.

2. A small elbow portion gently curved. The bangles are shown by incised lines.

3. Two fragments of legs - both bent at the knee.

Plate XXXIV

1. Two conical objects

2. A fragment of the breast portion of a female.
Plate XXXV

1. Fragments of arm, and shoulder parts.

2. Fragments of arm portions. One of them has an applique design on the shoulder.

Plate XXXVI

1. Fragments of arm portions. One of them has a 'nagabandha' and another has an amulet tied to the arm.

2. Two fragments of feet luted to a vessel each.

Plate XXXVII

1. A pointed object. It looks like a horn.

2. The head of a bird with long beak, gently bent.
