This work, ARCHAEOLOGY OF BIDAR DISTRICT WITH SPECIAL REFERENCE TO THE MARJRA AND THE KARANJA VALLEYS embodies an account of my archaeological discoveries during the Village-to-Village Survey of the Antiquarian Remains in Bidar district and an analytical study owes its present shape to my Guru, friends and relatives. It is my pleasant duty to record my thanks to all of them.

The work commenced when my Guru Prof. S.H. Ritti, Head of the Department of Ancient Indian History and Epigraphy, Karnataka University, Dharwad, assigned me Epigraphical Survey Work in Bidar district under a UGC project of the Department in January 1970. Subsequently, I registered for Ph.D. Degree under the guidance of Prof. A. Sundara of the same Department with a view to cover all the archaeological aspects of the region through a village-to-village survey. I was fortunate enough to get the Archaeological Survey of India, New Delhi Fellowship for the purpose since September 1978.

Throughout the process of my research I have been constantly inspired encouragement and goaded by my teachers Dr. S.H. Ritti, Dr. A. Sundara, Dr. B.K. Gururaja Rao,
Special thanks are due to Prof. A.Sundara who kindly permitted me and supervised the work with invaluable suggestions. But for his constant encouragement, help and insistence, I am afraid the work could have stopped long back and never ever completed for want of financial aid from the Archaeological Survey of India, New Delhi, after September 1980.

In the early stages of the work I received financial assistance of the UGC for which my thanks are due to the authorities of the UGC. I have been carrying out the research work as a Research Fellow of ASI, New Delhi. I am thankful to the ASI authorities for having awarded the Fellowship. My thanks are also due to Dr. D.M. Nanjundappa, former Vice-Chancellor of Karnatak University, Sharanagad, who has kindly extended help by sanctioning contingency grant of Rs.1,000/- from the UGC scheme.

During the course of my research I have been benefitted by the libraries of the Karnatak University
and the Kannada Research Institute, Sharwadi. I sincerely thank the authorities of these libraries.

In my endeavour I have received help of Dr. R.V. Ramasah (Director of Epigraphy, ASI, Mysore), Dr. B.N. Gopal (Mysore University, Mysore), Dr. B.S. Kulkarni (Director of KRI, Karnataka University, Sharwadi), Dr. B.R. Hiremath, Sri G.S. Patil and Mr. N. K. Narthi. Dr. K.R. Alur, Dr. Namikari and Mr. B. N. Vaidyanar readily consented to examine the fossils collected by me and have given a brief report of their study, which have been included under appendices. I am grateful to all these scholars for their help.

In the course of field work I have greatly benefitted by numerous persons. Although it is not possible to mention all these names here, I must mention the following for their assistance of various kinds: Sriyuts Ramachandra, Head Master, Bidar, Sat. S.V. Kulkarni, Humabadi, Mallikarjuna, Nagor, Kashiram, Verna, Shivaraj Patkar, Lanjawa, Subhash Iagi, Bhatshbra, Dr. Kulkarni, Mettikelunda, Sat. Bhagyalakshmi Sundara, Panchamma, Dr. R.V. Mittalamani, Sri G.A. Kakaal, and Sri Venkateshaham (Senior Conservation Assistant, ASI, Mysore) have been kind enough to help me during my stay at their places in.
connection with research work. I record my sincere thanks to all of them here.

Line drawings were prepared by Sri Unnatan under the supervision of Sri K.P. Poonaicha (ASI, Hampi Excavation, Hampi). Sri Shashi Sali has prepared the photo prints of sculptures and antiquities. The map has been prepared by Sri T.C. Kongi. I am thankful to all of them for their work.

Because of the stoppage of the ASI Fellowship from September 1980 when the work was still in infancy I had to seek financial assistance from my teachers, friends and relatives. Particular mention should be made of Sriyata Munior A.Joswall, M.M.J. Satyspraksh, M.Shivayogi, S.R.Setty. But for the timely help I must say that the work could not have been completed. I extend my sincere thanks to all of them.

I must record my sincere thanks also to Sri Isaac and Dr. Lothar Wanke, GE.FN.MI. SOKG, GRAI, Austria for presenting me with a typewriter in Graz which has helped me to prepare the draft of the dissertation.
Dr. G.S. Dikshit (Retired Professor of History), Sri S.V. Padigar (Retired) have kindly looked into the drafts and made valuable suggestions to improve it. For this I am highly grateful to them.

Sri R.V. Vastrad, Sri Raja Moogi, Smt. Prezakke and Dr. Basavaraj Shetty, Smt. and Dr. N. Shivamurthy, Sri K. Subbarao have been constantly goading me to complete the undertaken work. I take this opportunity to extend my hearty thanks to all of them.
