APPENDICES
QUESTIONNAIRE USED FOR COLLECTION OF PRIMARY DATA
DURING THE FIELD STUDY OF INDIVIDUAL
FARMER/WEAVERS/SERICULTURIST OF MANIPUR

A. Identification of farmers/weavers/sericulturist:

1. Name : ............................................................
2. District : ..........................................................
3. Village : ..........................................................
4. Age : ..........................................................
5. Marital status : ...............................................
6. Sex : ..........................................................
7. Caste & religion : ...........................................
8. Co-operative society (if any) : ..........................
   (reasons for joining or not joining
   The co-operative society)
9. Family Type : ..............................................
10. Are you a farmer/weaver : .............................

B. Profile of the Farmer/Weaver :

1. Age at the time of starting farming/weaving : ............
2. Educational Qualification : ..................................
3. Earlier Occupation : ........................................
   i) its annual income : .....................................
   ii) annual income from all sources : .................
   iii) parental education : ................................
   iv) parental occupation : ................................
   v) parental earnings : ....................................
C. Socio-Economic conditions:

1. Family Composition
   Males ........... Females ............ Children ............ Total ............

2. Are you supporting the family fully or partly?
   Yes/No : ....................

3. Has weaving increased your earnings?
   Yes/No : ....................

4. Have you been able to purchase durable goods from the earning of weaving/farming. If yes, then what items.
   Yes/No : ....................

5. What is your monthly/annual income?
   i) from waving/farming : .............................................................
   ii) from all sources : ...............................................................

6. Total land holding of the farmer (in acre) : ....................

7. Status of land holding:

<table>
<thead>
<tr>
<th>Land</th>
<th>Irrigated (acres)</th>
<th>Rainfed (acres)</th>
<th>Total (acres)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Owned</td>
<td></td>

</tbody>
</table>

D. Raw-materials:

1. Source of Raw-materials:
   Approximate percentage (in terms of valued)
   i) Local : .............................................................
   ii) District : ...........................................................
   iii) State : ..............................................................
   iv) Inter-State : ......................................................
   v) Imported : ............................................................
2. Whether you get raw materials whenever you need?
   Yes/No: ..................................

3. Quality Raw-materials:
   Yes/No/Both: .........................

4. Is the cost price reasonable/cheap/expensive?

F. Finance:

1. Total capital invested: ...........................................

2. Sources of Finance:
   i) Owned: .........................................................
   ii) Money lenders: ..............................................
   iii) Banks: ...........................................................
   iv) Non Banking Financial Institutions: ......................
   v) Co-operative Societies: ....................................
   vi) Central Govt.: .............................................
   vii) State Govt.: ...............................................  
   viii) Other (specify if any): ..................................

3. Any Subsidies: .....................................................

4. Terms of Repayment: ..............................................

5. Record of Repayment: .........................................

F. Assets/Machinery:

1. Types of Assets: .................................................

</tr>
</tbody>
</table>

6. Production:

1. Quantity: ................. Value: ................. Rs.: .................
2. Turnover period: .................
3. No. of employees: .................
i) Paid employees: ......................
ii) Family members: ......................

4. Amount of salary paid: ......................

5. Type of Products:
   Farmers: ......................
   Weavers: ......................

6. How your skills are acquired?
   i) Naturally
   ii) Trial & error
   iii) Training

7. How do you make new design?
   i) Imitation
   ii) Own development
   iii) Learned through training

8. How do you rate your product quality?
   i) High
   ii) Medium
   iii) Low

9. Type of sericulture activity: Mulberry  
   Tasar  
   Oak Tasar  
   Eri  
   Muga  

10. Type of crop reared:
    Seed  
    commercial  

11. Area under Host plants:
    No. of trees  
    average  

12. Seri – assets owned:
Separate rearing house [ ] dwelling house [ ]

(as per dfts reared)

Separate room in dwelling house [ ]

13. What is the maximum rearing capacity of the house? [ ]

14. Type of Rearing House:
   - Thatch [ ]
   - Tiles [ ]
   - Mud with wood [ ]
   - Stone [ ]
   - Slabs [ ]
   - Rec [ ]
   - Zinc sheets [ ]
   - Vermi composed shed [ ]
   - Asbestos [ ]

15. Extension participation:

<table>
<thead>
<tr>
<th>Programme</th>
<th>Yes/No</th>
<th>Frequency of participation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Who conducts: CSB/DOS</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Demonstration</td>
<td></td>
<td></td>

<td></td>
<td></td>
</tr>
<tr>
<td>Others</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Once in a week</td>
</tr>
</tbody>
</table>

H. Infrastructure:

1. Infrastructure facilities
   i) Nearest to city [ ] town [ ] the farmers has to go kms [ ]
   ii) To get DFLs: ......................................................
   iii) For selling cocoons: ...........................................
   iv) For purchasing farm inputs, fertilizers: ....................
   v) Reeling facilities available: ..................................
2. Sources of irrigation:
   iv) Tank .........  v) Tube well ..........  vi) Other (please specify) ......
3. Electricity: ...........................................

I. Marketing:
1. Sales amount ..........  Initial amount ..........  Latest amount ..........  
2. How the products are distributed?
   i) Self ii) Middlemen  iii) Wholesaler  
   iv) Retailer  v) Co-operatives  vi) Other (specify) .............
3. Do you sell in bulk or in small quantities?
   i) Bulk  ii) Small  
4. At what price do you sell?
   i) ................. Rs. .................  
   ii) ................. Rs. .................  
   iii) ................. Rs. .................  
5. You sell on cash or credit basis?
   i) Cash  ii) Credit  iii) Both  
6. If you sell on credit, how long does it takes to release the credit? ....... days.  
7. What are the costs incurred in order to sell the products? .................  
8. Advertising expenses, if any? Yes/No. .............  
9. Do you fell that the sericulture products has potentials for exports?  
   If so, then how .....................  

Problems faced by the farmers/weavers  
1. Raw material:  
   i) Scarcity  
   ii) High prices
iii) Law quality  
iv) Problem of transport  

2. Marketing:  
i) Problem of transport.  
ii) Competition from other small units.  
iii) Competition from large farms.  
v) Any other problems (specify)
